

Semi-Annual Radioactive Materials Inventory and Waste Disposal Record

For the Period: **September 1, 2001 to February 28, 2002**

Authorized User: _____ **Department:** _____

Building: _____ **Room:** _____

Directions: Inventory consists of all radioactive material on hand as of February 28, 2002. It includes radionuclides you possess as stock solutions, sealed sources, cultures, and/or waste. Physically inventory material in your possession. Group all radiochemicals containing the same radionuclide and the corresponding sum of their activities. You must complete this inventory even if no radioactive materials were received or disposed during the above period.

Radionuclide Inventory

Radionuclide	Chemical Form	Total Activity (mCi)

(Attach an additional sheet if necessary)

Radionuclide Disposal Record
