

Monarch TRANSFERmation

Monarch TRANSFERmation is a massive online database of transfer information. It is available through LEO Online and includes courses that can transfer from U.S. institutions.

Keep in mind that your official initial transfer evaluation may differ slightly based on your circumstances and program of study.

Your initial evaluation may list a number of courses as “elective” credit. Do not despair! These may be courses* that have not yet been evaluated by ODU faculty. Your advisor can instruct you as to how to have the course(s) individually evaluated by the department.

*Please note: Most Virginia Community College courses have already been evaluated by ODU departments and therefore your initial evaluation for those courses is not likely to change.
