GETTING EXPERIENCE

- Complete 3 credit hours of practicum or internship
- Internships are undertaken as a culminating experience after all coursework is complete
- Paid and unpaid internships are available
- Become eligible to take the CHES exam

Choose the BSHS Program

Our graduates serve as leaders in the field. They work in diverse settings where each day presents new challenges. Find yourself in a rewarding career where you are able to directly help people and challenge health delivery. Submit your application today to be considered for these competitive programs.

"Completing the BSHS program helped to open so many doors! The accredited program made me eligible for multiple Naval Officer Commissioning Programs and the coursework prepared me to enter a career in my field upon graduation. The program offers a variety of courses and flexible methods to complete them."  

-Dustan Oberhauser  
ODU Class of 2017

Health Services Administration

Health Services Administration graduates will possess the knowledge and skills necessary to enhance the administration and the delivery of health services through health care management and policy education. These graduates will serve as leaders for health care organizations. Students will have the opportunity to gain practical health care management experience and drive the innovation in health care policy.

Public Health

Public Health graduates will possess knowledge and skills necessary to prevent disease, prolong life and promote health through the organized efforts of society. They will be able to serve as leaders in the various departments of health, health care organizations, non-profit organizations, health care providers, research organizations and communities with a primary aim of providing conditions in which people can lead healthy lives.

What to Expect

Students receive current, relevant education, and experiences making them eligible for entry-level careers as health administrators and public health professionals. Careers stemming from the BSHS offer job diversity, successful job placement and overall satisfaction. Graduates work in local, state, and federal health agencies and in hospitals, laboratories, and other organizations. These majors also prepare students to pursue an advanced degree like the MPH, MPA and MS which serve as a foundation for a PhD or an MD.
