APPROVAL OF PROPOSED REVISIONS TO THE POLICY ON ACADEMIC RANK AND CRITERIA FOR RANKS

RESOLVED that, upon the recommendation of the Academic and Research Advancement Committee, the Board of Visitors approves the proposed revisions to the Policy on Academic Rank and Criteria for Ranks, effective September 18, 2014.

Rationale: The proposed revision concerns the section of the policy that describes the rank of Professor and would remove language that seems repetitive and could be confusing. The statement proposed for removal reads as if demonstrable contribution and excelling are so distinct that one could excel without making a demonstrable contribution.
Academic Rank and Criteria for Ranks
(Board of Visitors Policy, #1410)

I. Board of Visitors Policy and Criteria for Academic Rank (Tenure-track Faculty)

A. Full-time faculty members holding the following academic ranks are eligible to be considered for tenure after a suitable probationary period, and time at Old Dominion University in these ranks is counted toward the probationary period unless procedures for reduction in the probationary period are followed (see Policy on Initial Appointment of Teaching and Research Faculty).

1. Professor - This rank is one of the highest honors that the University can bestow.
   a. Professors are teacher-scholars of genuinely national standing who have made recognized contributions to the University and to their disciplines. They are expected to have demonstrated excellence in teaching, to have performed recognized and outstanding research and scholarly activity in their fields of specialization, and to have been pre-eminent in professional service. All appointed or promoted to the rank of professor are expected to have made some demonstrable contribution in each area and to excel in all three areas. Except under most unusual circumstances, the highest terminal degree in the field is required.

2. Associate Professor - Appointment or promotion to the rank of associate professor is an honor based on demonstrable performance.
   a. Criteria include an established high quality of performance in teaching, research, and service and pre-eminence in at least one of these areas. Except under most unusual circumstances, the highest terminal degree normally attainable in the field is required.

3. Assistant Professor - Appointment or promotion to the rank of assistant professor is the usual rank upon initial hiring.
   a. Criteria – This rank usually requires the highest terminal degree normally held in the field or its clear equivalent. Evidence of promise in teaching, research, and service is required. Faculty members holding the rank of assistant professor may be considered for tenure only if promotion to associate professor is simultaneously considered.

II. Board of Visitors Policy and Criteria for Academic Rank (Nontenure-track Faculty)

A. Full-time faculty members holding the following ranks are not eligible for tenure, but time at Old Dominion University in these ranks may be counted as part of the probationary period for tenure, except as noted in paragraph 1.a. below.

1. Instructor - Appointment to the rank of instructor is based on evidence of promise in teaching. Instructors normally hold master’s degrees in their areas of specialization. There are three types of instructors at Old Dominion University:
   a. Faculty members normally lacking the highest terminal degree who are employed to teach undergraduate courses, usually on the freshman and sophomore levels. They normally receive annual appointments for a period of three years, but in exceptional circumstances they may be reappointed for a maximum of three additional annual contracts. They must be informed in writing at the time of the original appointment that their positions are not permanent and that they will not be eligible to be considered for tenure.
   b. Instructors who are terminal degree candidates – Candidates for a terminal degree may be given annual appointments as instructors if they can provide evidence that they will complete all requirements for the terminal degree within the first year of teaching at Old Dominion University. An instructor in this category who completes this work, and whose department recommends reappointment, is given a second annual contract as an assistant professor and is eligible for tenure at the end of the usual probationary period. An instructor in this category who completes all degree requirements during the first semester at Old Dominion University is given the title of assistant professor for the second semester. An instructor in this category who does not complete all requirements...
for the terminal degree within the first year of employment is normally not reappointed for a second year, but a second annual contract as instructor may be granted with the approval of the chair, dean and provost and vice president for academic affairs; if all requirements for the degree are completed within the second year, the instructor is promoted to the rank of assistant professor. If all degree requirements are not completed during the second year, a third and terminal contract as instructor may be granted but the faculty member is not eligible for consideration for promotion or tenure.

c. Tenure-track, master's-level instructors -- In certain professional departments in which the master's degree is the terminal degree, faculty members who have three years or less of full-time teaching experience at the college level are normally appointed initially to the rank of instructor. Such faculty members are eligible for promotion to the rank of assistant professor after two years in the instructor's rank on the recommendation of the chair and dean and on the approval of the provost and vice president for academic affairs. In exceptional cases, where professional experience is clearly demonstrated, the requirement of prior experience may be waived with the approval of the chair, dean, and provost and vice president for academic affairs.

2. The following full-time academic ranks do not carry tenure, but if a faculty member who has held one of these ranks is subsequently appointed to a tenure-track position as described in section I.A., time spent at Old Dominion University in one of these ranks may be counted as part of the probationary period for tenure.

a. Visiting professor - This rank is reserved for scholars of distinction who agree to come to the University for one year or less in order to serve a particular need in a college or department. Credentials equal to those required of a full professor are required.

b. Visiting associate professor - This rank is reserved for scholars of distinction who agree to come to the University for one year or less in order to serve a particular need in a college or department. Credentials equal to those required of an associate professor are required.

c. Visiting assistant professor - This rank is reserved for scholars of distinction who agree to come to the University for one year or less in order to serve a particular need in a college or department. Credentials equal to those required of an assistant professor are required.

3. The following academic ranks do not carry tenure, and time at Old Dominion University in these ranks is not counted as part of the probationary period for tenure. All appointments and reappointments are contingent upon available funding.

a. Assistant instructor - This is a full-time rank requiring at least a bachelor's degree in the area of specialization. Except under unusual circumstances, assistant instructors do not teach courses carrying degree credits.

b. Lecturer - This is a full-time rank that requires an appropriate master's degree and evidence of teaching ability. Demonstrated expertise in a specific field may also be required.

c. Senior lecturer - This is a full-time rank that requires an appropriate master's degree, demonstrated expertise in the field, a sustained record of effective performance in teaching and professional service, evidence of continued development and study in the field, and a minimum of five years' experience at the rank of lecturer or equivalent. Persons appointed to this rank are expected to assume a predominantly instructional role, at undergraduate or graduate levels, and participate in other professional service activities normally assigned to or expected of full-time faculty.
d. Faculty of Practice - Faculty of practice are appointed at the rank of professor, associate professor, or assistant professor. Such appointments are generally made for a specified term and do not lead to tenure or promotion during the specified term. A faculty of practice appointment may be for a term of one to three years and may be renewable under exceptional circumstances. Faculty members in such positions may be employed to work on a specific project or series of projects that could involve teaching, research or service or some combination of these activities. If used in teaching, they need to meet all University credential requirements. Employment of such faculty in project-related positions may be limited by the funds available. Faculty of practice may serve on some University-wide committees and, depending on college and department policies, may serve on some department and college committees. They cannot vote on appointments, retention, promotion, or tenure of faculty. Initial appointment or reappointment of faculty of practice must be reviewed and recommended for appointment or reappointment by the promotion and tenure committee of the department in question. A tenure-track faculty member who is denied tenure shall not be eligible for a faculty of practice appointment for five years after being denied tenure. Faculty of practice appointments should not exceed 10% of the total number of tenured/tenure-track positions in a college.

e. Intercollegiate coach - This is a full-time rank normally requiring a master's degree and a record of demonstrated performance in the area of specialization. Persons holding this rank devote half time or less to the instruction of credit students. These positions are normally funded from both Commonwealth and non-Commonwealth sources.

f. The University supports the involvement of distinguished practitioners from many disciplines and fields as academics as a means to enrich the experiences of students. Examples of such practitioners are as follows.

1. Artist-in-residence - The holder of this position is a distinguished practitioner of the fine arts, employed either full time or part time by the University. In most cases, an artist-in-residence devotes half time or less to the instruction of credit students. The rest of the time, for a full-time faculty member, is devoted to noncredit course work and other public service activities; to unstructured instruction to University students; to professional service to the community; and to any combination of these activities. The main criterion for reappointment is pre-eminence in an artistic field, and the normal academic credentials, such as advanced degrees or experience in university teaching, are not necessarily required.

2. Performer-in-residence - The description of this position is basically equivalent to that of artist-in-residence, except that the holder is a distinguished practitioner of the performing arts whose service to the University and the community may include performances available to the University community and to the region.

3. Writer-in-residence - The description of this position is basically equivalent to that of artist-in-residence, except that the holder is a creative writer of distinction.

g. Research Faculty

1. Research professor - Faculty members in this position, which may be either full time or part time, are devoting most of their efforts to research and are normally not teaching more than one course a semester. These positions are normally funded from non-Commonwealth funds. A research professor must meet the research criteria demanded of a full professor in the relevant department.
2. Research associate professor - This position has the same credentials and expectations as that of research professor except that designation at this rank must also meet the research criteria for appointment to the rank of associate professor in the department(s) to which the research associate professor is attached.

3. Research assistant professor - This position has the same credentials and expectations as that of research associate professor except that this designation must also meet the research criteria for assistant professor in the department(s) to which the research assistant professor is attached.

4. Personnel with the title of research professor, research associate professor and research assistant professor may chair doctoral and master's committees provided they are certified as graduate faculty. Research personnel are subject to all University, college and department policies and procedures governing graduate teaching, program implementation, and oversight of graduate research and must undergo the same formal academic review and graduate certification review as required of tenured and tenure-track faculty members.

5. Research associate - This position has the same characteristics as that of research assistant professor except that those holding it meet the criteria for instructor in the department(s) to which they are attached.

6. Postdoctoral Research Associate - This position is generally reserved for a person who has recently completed his or her doctoral degree. While the primary employment activity will be research related, some teaching may be allowed. In general, these positions are funded through non-Commonwealth funds.

h. Adjunct Faculty

1. Adjunct professor - This rank is awarded to persons engaged in part-time teaching or special services who meet the criteria demanded of a full professor in the department(s) to which they are attached.

2. Adjunct associate professor - This position is awarded to persons engaged in part-time teaching or special services who meet the criteria established for associate professor in the department(s) to which they are attached.

3. Adjunct assistant professor - This position is awarded to persons engaged in part-time teaching or special services who meet the criteria established for assistant professor in the department(s) to which they are attached.

4. Adjunct instructor - This position is held by part-time faculty members who meet the criteria established for instructor in the department(s) to which they are attached.

5. Adjunct assistant instructors - This position is held by part-time faculty members who meet the criteria established for assistant instructor in the department(s) to which they are attached.

6. Adjunct clinical faculty, adjunct community faculty - The titles adjunct clinical faculty or adjunct community faculty (as appropriate), with their respective ranks, may be awarded to persons engaged in part-time teaching or special services relating to the practical instruction of students, and who meet the professional and academic criteria for those ranks established in the department(s) to which they are attached. These titles pertain to persons who are not normally paid a salary by the
university, but who supervise activities designed to give students practical experience in a given profession.

i. Other - The president may recommend to the Board of Visitors the establishment of other nontenured positions to allow the appointment of persons distinguished in their fields but not covered by any of the above.

APPROVAL OF PROPOSED REVISIONS TO THE POLICY ON TENURE

RESOLVED that, upon the recommendation of the Academic and Research Advancement Committee, the Board of Visitors approves the proposed revisions to the policy on Tenure effective September 18, 2014.

Rationale: The proposed revisions would require a summary of minority opinion from the department committee and the college committee when there is a split vote on a tenure recommendation. A minority report is required from these committees when dealing with promotion to professor and is also required from the University committee in tenure cases. Thus, including the summary of minority opinion in the Tenure policy brings consistency to the policies and procedures on tenure and promotion.
Tenure
(Board of Visitors Policy, #1411)

I. Purpose of Tenure
The main purposes of tenure are to recognize the performance of faculty members who have given years of dedicated service to the University, to protect academic freedom, and to enable the University to retain a permanent faculty of distinction in order to accomplish its mission. For these reasons, tenure is awarded only after a suitable probationary period, and the decision to award tenure is based both on the merit of the individual faculty member and on the long-term needs and mission of the department, the college, and the University.

II. Eligibility for Tenure
A. Only faculty members who hold the ranks of assistant professor, associate professor, or full professor are eligible to be considered for tenure. Assistant professors will be awarded tenure only if they are simultaneously being promoted to the rank of associate professor.
B. Faculty members may be considered for tenure only once.
C. Under certain circumstances administrative faculty holding rank in a department at the assistant professor (if promotion to the rank of associate professor is being simultaneously considered), associate professor, or full professor level may be considered for tenure, as specified by the Board of Visitors policy concerning administrative faculty.
D. Since tenure is granted as a faculty member in an academic department or program, the award of tenure does not imply continuance in any full-time or part-time administrative position, nor does it imply continuance of any specific work assignment within or outside the department in which tenure is granted.

III. Probationary Period
A. The probationary period begins with the initial full-time, tenure-track appointment at Old Dominion University at the rank of instructor, assistant professor, associate professor, or full professor; only time spent in a tenure-track position at one of these ranks is counted as part of the probationary period.

Subject to agreement by the University and the faculty member, any academic year in which the faculty member was on a full-time tenure-track appointment in one of these ranks for at least one semester may be counted as one year of the probationary period.

B. The following do not count as part of the probationary period:
1. Time in the rank of assistant instructor, faculty of practice, artist-in-residence, performer-in-residence, writer-in-residence, research professor, research associate professor, research assistant professor, research associate, or any part-time position.
2. Time in appointment as an administrator, that is, in a position designated as a teaching/research administrative position or as a classified position in the state personnel system. (Time spent in a teaching and research faculty position as defined in the state personnel system will count as part of the probationary period, even if administrative responsibilities are assigned as part of that position; normally, departmental administrative positions such as chair or assistant chair will thus count as part of the probationary period.)
3. Time in a position that involves no teaching of credit courses, for example as a teacher of children or a therapist in the Children’s Learning and Research Center or as a teacher of exclusively noncredit course work.
4. Time spent on leave of absence.
5. Time spent on faculty exchanges if the faculty member so chooses.
C. A period of time, not to exceed one year, may be excluded from the probationary period, upon the approval of the provost and vice president for academic affairs subject to the following conditions:
1. That the faculty member submits a request in writing to the department chair. The department chair and the dean shall forward the request with a recommendation to the provost and vice president for academic affairs.

2. The request must be the result of the occurrence of a serious event. A "serious event" is defined as a life-altering situation which requires the faculty member to devote more than eight hours of each day to alleviate the impact of the event for a period greater than six weeks and less than one year. These events may include the birth of a child, adoption of a child under the age of six years, serious personal illness or care of an immediate family member including parent, stepparent, child, or spouse.

3. The faculty member shall provide documentation to justify the time requested and the seriousness of the event.

4. The request shall be made no later than one year from the first day of the serious event.

5. The faculty member must have been adequately performing the duties assigned prior to the first day of the serious event.

6. Faculty who are awarded this exclusion shall have no requirements or expectations beyond those of any probationary faculty member.

7. Work accomplished during the excluded period may be cited in the tenure case.

8. Requests for exclusion may be made at any time during each academic year. No request shall be made after the application for tenure has been submitted.

9. Decisions will be made within 60 days of the receipt of the faculty member’s request by the department chair.

10. The decision of the provost and vice president for academic affairs is final.

D. The maximum length of the probationary period is seven academic years. The faculty member is informed of the decision of the provost and vice president for academic affairs on tenure by April 30 of the sixth year of probationary service. The faculty member will receive either a tenure contract or a terminal contract in the seventh year.

E. The length of the probationary period may be reduced in any of the following instances:

1. A faculty member who has full-time teaching experience at the rank of instructor or above at another collegiate institution; or has had full-time teaching experience in a nontenure-track position at Old Dominion University; or who has had full-time teaching experience at the rank of instructor or above at Old Dominion University prior to a break in service, may have the probationary period reduced by one or two years. If the probationary period is to be reduced, the reduction must be recommended by the chair and dean and approved by the provost and vice president for academic affairs at the time of the initial appointment. Unless such a reduction has been approved and the faculty member has been so notified in writing at the time of the initial appointment, reduction for prior service will not be granted.

2. A faculty member initially appointed to the rank of full professor may be notified of a tenure decision by April 30 of the second year of service; if tenure is awarded, a tenure contract will be offered for the third year of service. In addition, the probationary period for a full professor may be eliminated, and an initial tenure appointment may be recommended to the board if such an appointment has been requested by the chair, voted on by the departmental tenure committee, the college promotion and tenure committee, the University Promotion and Tenure Committee and approved in writing by the dean, the provost and vice president for academic affairs, and the president. It is the sense of the Board of Visitors that the procedure of eliminating the probationary period for tenure should be rarely used.

3. A faculty member initially appointed to the rank of associate professor may be notified of a tenure decision by April 30 of the fourth year of service. If tenure is approved, a tenure contract will be offered for the fifth year. In addition, the
probationary period for an associate professor may be eliminated, and an initial
tenure appointment may be recommended to the board if such an appointment
has been requested by the chair, voted on by the departmental tenure
committee, the college promotion and tenure committee, the University
Promotion and Tenure Committee and approved in writing by the dean, the
provost and vice president for academic affairs, and the president. It is the sense
of the Board of Visitors that the procedure of eliminating the probationary period
for tenure should be rarely used.

4. A faculty member may apply for early consideration for tenure, if the faculty
member believes that he or she has met or exceeded the expectations of
quantity and quality of achievements for teaching, scholarship, research, and
service completed at Old Dominion University needed to qualify for tenure before
the end of the normal probationary time period. The criteria for the award of
tenure for such faculty will be the same as for those who apply after the normal
probationary time period. A faculty member who applies for early consideration
for tenure and is denied tenure will be offered a terminal contract for the ensuing
year. It is the sense of the Board of Visitors that only demonstrably exceptional
faculty will be awarded tenure under this clause.

IV. Criteria for the Award of Tenure

A. The following criteria are used in the evaluation of every candidate for tenure. Each faculty
committee and administrator considering a tenure case must specifically address each of
these criteria as they apply to that case in the written recommendations that are submitted
up the line to the provost and vice president for academic affairs. Committee votes must
be recorded in the recommendations. In cases in which a vote is not unanimous, reasons
for negative votes must be included.

B. Criteria to be used are as follows:

1. Since tenure may be awarded only to faculty members who hold the rank of
associate or full professor or who are being simultaneously appointed to one of
those ranks, any faculty member awarded tenure must meet the minimum
requirements for the rank of associate professor.

2. Merit - Merit of the faculty member in teaching, research, and service over the
entire probationary period and the contributions made by the faculty member in
these areas to the University. (For definition of teaching, research, and service
and a discussion of methods of evaluation, see policies and procedures
concerning evaluation of faculty members, evaluation of teaching, evaluation of
scholarly activity and research, and evaluation of service.) In addition to
information supplied by faculty information sheets, the chair’s evaluation, and
other material presented by the department, an opportunity shall be made
available for the faculty member to provide in writing any other material in
support of the tenure candidacy. It is the responsibility of the department chair
and the departmental promotion and tenure committee to provide an assessment
of the quality of the publications for the faculty being considered for tenure. The
evidence should address the quality of the journals and the reputation of book
and other such publishers. In case of material developments, additional
documentation may be added to the portfolio before the conclusion of the
evaluation process with the concurrence of the department chair and dean.

External evaluation of the quality of the faculty member’s research performance
will be required from nationally recognized experts in the faculty member’s field.
Candidates for tenure are responsible for the preparation of the research portfolio
and curriculum vitae to be sent to external reviewers. Candidates for tenure
should provide a statement of potential external and/or internal reviewers with
whom there is a conflict of interest, e.g., co-authors, co-investigators, etc.

a. A curriculum vitae will be required of each external reviewer. Each
reviewer will be asked to describe any personal or professional
relationship with the candidate. It is the responsibility of the chair to include a curriculum vitae of each reviewer. For tenure of department chairs, the responsibility belongs to the dean.

b. External reviewers will be asked to evaluate all submitted material mailed to them. In the case of the arts, reviewers may be asked to consider works of art or performances. External reviewers will be asked to evaluate: a) the quality of the scholarship or creative work under review; and b) the scholarly reputation (regional, national, international) of the candidate.

c. All candidates for tenure will be required to have their scholarship evaluated by no fewer than four external reviewers. If fewer than four reviews are received, the chair will choose additional reviewers alternately from the lists of the department promotion and tenure committee and of the candidate.

3. The determined long-term needs of the department, college, and University, including at least the following:

a. The long-term enrollment of the department.

b. The need for an additional specialist in the faculty member’s area of specialization as a permanent member of the department in terms of the mission of the department, the college, and the University.

c. The tenure structure of the department. (Although no maximum percentage of faculty members on tenure is established, all committees and administrators considering tenure must take into account the need for flexibility in course offerings and the desirability of a tenure structure that will allow openings for new tenured faculty members in the ensuing decades so that new areas of specialization and new needs can be met. The position of other nontenured faculty members in the department, anticipated retirements, or other known departures, and projected new programs or changes in directions must be considered.)

4. No person can be awarded tenure unless convincing evidence is provided of effective teaching.

5. In departments offering graduate work, no faculty member can normally be awarded tenure unless convincing evidence is provided of successful performance in research. (Exceptions can be made only if the department can demonstrate a long-term need for an additional tenured faculty member who will not be teaching graduate students.)

V. Procedure for Tenure Consideration

A. The provost and vice president for academic affairs, fifteen months prior to the date for giving notification of the tenure decision, shall formally advise the professor that the limit of the probationary period is approaching, and explain what procedures should be followed by those wishing to be considered for tenure.

B. External review process

1. The responsibility for initiating the external review, securing the reviewers, and forwarding complete review files to the dean, provost and vice president for academic affairs, and the University Promotion and Tenure Committee belongs to the department chair.

2. External reviewers with academic positions will hold the same rank or higher than the promotion rank for which the faculty member is being considered; exceptions should be justified by the dean. The department tenure and promotion committee and the candidate will prepare separate lists of potential reviewers. The candidate will review both lists and will document personal and professional relationships with all potential reviewers. The chair will select three reviewers from the candidate’s list and three reviewers from the department tenure and promotion committee’s list; the chair will provide this list of reviewers to the dean. The dean will submit an agreed upon list to
the provost and vice president for academic affairs for final approval prior to initiating the review process. As a general rule, external reviewers should not be co-authors or former mentors of the candidate. The selection of potential external reviewers must be completed before the end of the semester prior to the submission of credentials for tenure.

3. External reviews will be confidential; reviewers will be so advised. Requests for exception to the confidentiality of external reviews should be made directly to the provost and vice president for academic affairs before the reviewers are asked to submit evaluations. If an exception is approved, candidates for tenure will be allowed access to the substance of external reviews, but the authorship of specific external reviews and other identifying information contained therein will remain confidential. All external reviewers will receive a standard letter sent by the chair but prepared by the provost and vice president for academic affairs in consultation with the deans and a copy of the policy on external reviews so their responsibilities will be clear.

4. The University and college administration will assist departments where reasonable expenses are necessary to obtain appropriate external reviews.

C. Initial consideration of tenure cases is conducted by the tenured faculty of the department.

1. The tenured faculty of a department may determine that a tenure committee of a specified size will be selected from their membership to conduct the tenure deliberations and make recommendations to the chair. In this case, the entire full-time department faculty will elect the committee. It is the responsibility of this committee to determine the opinions of tenured members of the department not serving on the committee.

2. In departments where fewer than three members are tenured, the dean, in consultation with the chair, will appoint enough additional tenured faculty members to form a committee of at least three.

3. No dean, associate dean, assistant dean, or other full-time administrator or department chair shall attend or participate in the deliberations of the departmental, college, or University Promotion and Tenure Committee, or of the tenured faculty of the department serving as a group to consider tenure, except in those cases when such committees or groups may, at their discretion, request administrators or chairs to answer specific questions concerning tenure cases.

4. The college committees shall consist of one tenured faculty member from each department in the college. All members of college promotion and tenure committees shall be elected directly by the faculties they represent for a one-year term renewable twice for a total of three years. This member shall be chosen by majority vote of all full-time, tenure-track teaching and research faculty members of the department, present and voting, by secret ballot before April 15 of each year for the ensuing year. There should be at least three professors on the college committee. No person shall serve on a college promotion and tenure committee for more than three years consecutively but is eligible for reelection after an absence of at least one year.

5. The University Promotion and Tenure Committee shall consist of one tenured full professor from each of the major degree-granting academic colleges. This member shall be elected by his/her college's promotion and tenure committee(s) by September 15. The University Promotion and Tenure Committee shall elect one of its members as chair. No person shall serve on the University Promotion and Tenure Committee for more than three years consecutively but is eligible for reelection after an absence of at least one year.

D. The committee or group of tenured faculty makes its recommendation to the chair. In instances of a split vote, a summary of minority opinion must be included. All committee members should vote yes or no. Considering this recommendation, the chair makes an additional evaluation and recommendation concerning tenure.

E. If either the tenured faculty (or their committee), or the chair, or both recommend tenure, the credentials of the faculty member together with the recommendations of the tenured faculty (or their committee) and the chair are forwarded to the tenure committee of the college, which examines the facts and the recommendations and makes a
recommendation to the dean. The committee or group of tenured faculty makes its recommendation to the chair. In cases of a split vote, a summary of minority opinion must be included. All committee members should vote yes or no. Considering this recommendation, the chair makes an additional evaluation and recommendation concerning tenure.

F. If neither the departmental committee nor the chair recommends tenure for the faculty member, tenure is not granted in the ensuing year. The faculty member is given a terminal contract for the ensuing year unless a further review is requested.

   If the faculty member requests further review, all materials including departmental and chair evaluations and recommendations are forwarded to the college tenure committee, which makes a separate recommendation to the dean. All committee members should vote yes or no. The dean then makes a decision concerning tenure and informs the faculty member.

   If either the decision of the college committee or that of the dean is positive, the faculty member’s case is considered in accordance with the procedures in the following paragraphs. If both decisions are negative, the faculty member may request, within two weeks, a further review by the provost and vice president for academic affairs, who makes a final determination concerning further consideration of tenure.

G. The dean of the college examines the facts and all previous recommendations and makes a recommendation concerning tenure, which is forwarded, with reasons, to the provost and vice president for academic affairs.

H. The University Promotion and Tenure Committee, consisting of one tenured full professor from each of the major degree-granting academic colleges, examines the facts and all previous recommendations and documentation and makes a recommendation (with reasons, including minority reasons, if any) concerning tenure, which is forwarded to the provost and vice president for academic affairs.

I. The provost and vice president for academic affairs, after examining all submitted documents and consulting with appropriate staff members, makes a determination concerning tenure for the faculty member. If the recommendations from all committees and administrators previously acting on the case have not all been the same, or if the provost and vice president for academic affairs disagrees with the recommendations that have been the same, then the provost and vice president for academic affairs shall consult with the University Promotion and Tenure Committee and with the chair and dean concerned.

J. If the determination of the provost and vice president for academic affairs is in favor of tenure, the provost and vice president for academic affairs forwards the faculty member’s name to the president for presentation to the Board of Visitors as a candidate for tenure. The Board of Visitors will act on the case by April 30 (mid-December for mid-year tenure candidates) of the year in which it is being taken up. Upon approval of the Board of Visitors, the faculty member is offered a tenure contract for the coming year.

K. If the determination of the provost and vice president for academic affairs is against tenure, the faculty member is notified by April 30 (mid-December for mid-year tenure candidates) that a terminal contract will be offered for the ensuing year.

L. The faculty member may request, within two weeks, that the president review a negative decision of the provost and vice president for academic affairs. The president should make a decision on the review within one month. If the president upholds the decision of the provost and vice president for academic affairs, the faculty member may request a further review by the Board of Visitors or its designated committee within two weeks. (Refer to the policy on Communications With the Board of Visitors for procedural information.) The decision of the Board of Visitors or its designated committee is final.

M. Copies of the recommendations by all committees, chairs, deans and the provost shall be provided to the faculty member being considered for tenure. The faculty member will be provided opportunity to correct any factual misinformation in such recommendations by
placing a letter in his or her tenure file at any stage, or up until March 1 to the provost (November 22 for faculty hired mid-year).

N. The above procedures at the departmental and college level may be suitably adapted for faculty members who hold interdisciplinary or interdepartmental appointments. The adapted procedures should be recommended by the promotion and tenure committee of the college or colleges involved and approved by the dean or deans and the provost and vice president for academic affairs. Procedures above the college level will be the same as designated above in all cases.

APPROVAL TO RENAME THE DEPARTMENT OF ACCOUNTING TO THE SCHOOL OF ACCOUNTANCY AND TO RENAME THE DEPARTMENT OF URBAN STUDIES AND PUBLIC ADMINISTRATION TO THE SCHOOL OF PUBLIC SERVICE

RESOLVED that, upon the recommendation of the Academic and Research Advancement Committee, the Board of Visitors approves renaming the Department of Accounting to the School of Accountancy and Renaming the Department of Urban Studies and Public Administration to the School of Public Service effective September 18, 2014.

Rationale: The Board of Visitors renamed the College of Business and Public Administration to the Strome College of Business at its meeting on June 13, 2014. The renaming of the Department of Accounting to the School of Accountancy and the Department of Urban Studies and Public Administration to the School of Public Service is proposed in order to enhance visibility for these programs in the Strome College of Business.

While the College is accredited by the Association to Advance Collegiate Schools of Business (AACSB), the accounting program has its own and a separate accreditation by AACSB. Old Dominion University is one of 176 Business schools worldwide that have been separately accredited in Business and Accounting.

The public administration component of the Strome College of Business is also separately accredited by the Network of Schools of Public Policy, Affairs, and Administration, previously known as the National Association of Schools of Public Affairs and Administration (NASPAA). NASPAA is an international association of schools of public policy and administration at universities in the United States and abroad. The organization is the recognized accreditor of master's degree programs in public policy, public affairs, and public administration. Its stated mission is to ensure excellence in education and training for public service and to promote the ideal of public service. Old Dominion University’s Master of Public Administration (MPA) program – offered by the Department of Urban Studies and Public Administration – is one of five NASPAA-accredited programs in the Commonwealth of Virginia.

Given the differences in the accreditation for the programs in Accounting and Public Administration and the public-orientation of the public administration programs (as opposed to the business orientation of the Strome College of Business), the College is seeking to change the department names to the School of Accountancy and the School of Public Service. This reflects the new structure of the Strome College of Business where AACSB-accredited programs more related to business administration are organized as departments and other programs with separate accreditations are organized within Schools.
APPREOVAL TO RENAME THE REGIONAL STUDIES INSTITUTE TO THE CENTER FOR ECONOMIC ANALYSIS AND POLICY

RESOLVED that, upon the recommendation of the Academic and Research Advancement Committee, the Board of Visitors approves renaming the Regional Studies Institute to the Center for Economic Analysis and Policy effective September 18, 2014.

Rationale: The Regional Studies Institute houses the State of the Region Report and the Economic Forecasting Project. Over time, the activities of the Regional Studies Institute have broadened gradually and now include quite a few projects that have a statewide focus including tourism, the port and the coal industry. Professor Gary Wagner of the Economic Forecasting Project also now is one of a select few participants in the Philadelphia Federal Reserve's national economic panel.

The most important change, however, is the new "State of the State" report that will be produced beginning in 2015 under the sponsorship and support of the Virginia Chamber of Commerce. In essence, the State of the State reports will do the same things for the Commonwealth as the highly successful State of the Region reports have done for Hampton Roads – economic forecasting and analysis of issues. The Institute will continue to do the State of the Region report (published each year in early October), but now also will produce a State of the State report in early December each year. The Chamber will sponsor breakfasts and lunches around Virginia in the same fashion that the Hampton Roads Chamber of Commerce sponsors the initial presentations in Hampton Roads.

It is increasingly apparent that the work of the Regional Studies Institute no longer will be solely regional. Hence, the name change to the Center for Economic Analysis and Policy is requested. The new name will lead to enhancing the reputation of the Strome College of Business and bring additional recognition to the College and Old Dominion University.

APPROVAL TO RENAME EXPERIENTIAL LEARNING TO PRIOR LEARNING ASSESSMENT

RESOLVED that, upon the recommendation of the Academic and Research Advancement Committee, the Board of Visitors approves renaming the Office of Experiential Learning to Prior Learning Assessment effective September 18, 2014.

Rationale: Currently, the term “experiential” is used by multiple offices on campus. The Office of Experiential Learning uses the term for assessing college-level knowledge gained through work, life experience and self-study and awards experiential learning academic credit. The Career Management Center offers Experiential Education Internships and Cooperative Education, and uses experiential learning to refer to credit earned at ODU for faculty supervised work experience such as cooperative education and internships. Colleagues in ODU’s Housing and Residence Life also utilize the term experiential learning for co-curricular activities hosted in the residence halls. The request to change the name of the Office of Experiential Learning to Prior Learning Assessment will reduce the confusion students have with the function of the office.

The Council for Adult and Experiential Learning (CAEL), which created standards for awarding credit through assessment, refers to Prior Learning Assessment as learning gained outside of a traditional academic environment. Prior Learning Assessment is the process of evaluating and credentialing learning gained in a variety of contexts. These contexts include both formal and informal experiences that could take place in work settings, military training, community involvement, independent study or certification by professional organizations. The use of the term “Prior Learning Assessment” would encompass these learning contexts and alleviate confusion by students, faculty and staff regarding credit earned based on internships/cooperative experiences to those awarded based on life learning.
