The Department of Chemistry and Biochemistry

Seminar Series

Presents a Seminar Titled:

“Backing Up Your Story: A Guide to Data-Driven Personal Statements”

Presented by:

Dr. Sarah Golding
Director of Undergraduate Research
College of Humanity & Sciences
Biology
Virginia Commonwealth University

Writing a personal statement is a daunting task; What to say, what not to say, whether to mention those bad grades or that failed research experience? How much to boast about your successes, or how much emotion to add? Dr. Golding will provide an interactive discussion-based guide to using your “data” to guide your personal statement and making sure you “back up your story.
