PART ONE

THE TEACHER CANDIDATE INTERNSHIP

POLICIES and PROCEDURES
**Introduction**

This handbook is to guide teacher candidates, supervising clinical faculty, university faculty, administrators, university supervisors, and other personnel involved in the teacher candidate internship. In this handbook we anticipate your questions and provide information that will facilitate an effective teacher candidate internship. This handbook addresses objectives, policies and procedures, roles and responsibilities, activities, and evaluations.

Old Dominion University appreciates the contributions of supervising clinical faculty and university supervisors who give so freely of their time to help teacher candidates make the transition from college student to *Professional Educator*. The faculty of the Darden College of Education and Professional Studies, Arts and Letters, and College of Science could not prepare quality teachers without the assistance of parents, clinical faculty, and public schools that provide critical resources for teacher candidates. A successful internship is built upon a team effort that includes the collaboration of supervising clinical faculty, university supervisors, school administrators, and teacher candidates. Each participant is expected to read this handbook to become acquainted with the roles and responsibilities of all those involved in the process. Together, we can provide a high-quality internship experience.

Comments and suggestions concerning the teacher candidate internship experience are sincerely welcomed.
Teacher Candidate Internship

The faculty of the Darden College of Education and Professional Studies, College of Arts and Letters, and College of Science congratulates you on your progress as a future Professional Educator! Welcome to the “capstone” experience in your pursuit of a professional teaching license. This critical internship experience will provide you with the foundation to make a smooth transition from being a student to becoming a Professional Educator. Expectations are high, responsibilities are numerous, and time constraints are demanding. Preparation is the key to your success!

This handbook has been prepared to provide you with information you will need in order to have a successful and enjoyable internship. It is important that you read and refer to these guidelines and requirements throughout your internship.

Conceptual Framework: Educator as Professional

The faculty in the Darden College of Education and Professional Studies, the College of Arts and Letters, and the College of Sciences accept the responsibility of preparing professionals for the schools. These professionals are characterized both by their responsibility for making decisions in the context of the world of practice and by their increasing ability to make wise and informed decisions based on sound knowledge, guided by experience and scientifically-based research; thus, the theme of the conceptual framework of all professional education programs at Old Dominion University is the Educator as Professional. For further information on the Conceptual Framework model turn to Appendix 1.

Figure 1.0

Educator as Professional

Conceptual Framework
Professional Partnerships

Partnerships begin with an honest discussion about what it means to develop and train Professional Educators. Professional partnerships are rooted in mutual trust, benefit, and concern. Merging sound aspects of educational theory and research-based practice has been the long-accepted tradition behind internships for pre-service teacher education programs.

Professional partnerships between schools and universities serve the personnel and staff development needs of public schools.

The internship experience is a rare opportunity for teaching colleagues to work together to improve teaching effectiveness. The mentors frequently sharpen their instructional skills by articulating why they do what they do; the novices can afford to take risks in a supportive environment. Clinical faculty benefit from their teacher candidate’s enthusiasm; novices benefit from their clinical faculty’s experience. Professionally aligning oneself with a colleague feels good. For too long, the isolation of teaching has frustrated novices and veterans alike. Knowing that you can honestly solve problems and make collegial decisions creates trusting and lasting relationships.

A successful teacher preparation program is deeply rooted in the professional relationships developed among school principals, clinical faculty, teacher candidates, and university supervisors. Old Dominion University’s major purpose in its teacher education programs is to prepare professional educators who have knowledge of their teaching disciplines, skills to practice state-of-the-art instruction to learners of diverse cultures, and dispositions that reflect a commitment to teaching and learning. The programs integrate the following broad goals of the Interstate New Teacher Assessment and Support Consortium (INTASC) principles Model Core Teaching Standards and Learning Progressions for Teachers 1.0 developed by the Council of Chief State School Officers.

INTASC STANDARDS

- **Standard #1: Learner Development.** The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.
- **Standard #2: Learning Differences.** The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.
Standard #3: **Learning Environments.** The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Standard #4: **Content Knowledge.** The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Standard #5: **Application of Content.** The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Standard #6: **Assessment.** The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher’s and learner’s decision making.

Standard #7: **Planning for Instruction.** The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Standard #8: **Instructional Strategies.** The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Standard #9: **Professional Learning and Ethical Practice.** The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Standard #10: **Leadership and Collaboration.** The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning and development, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.
Teacher Candidate Internship Requirements

The following requirements must be completed and on file with the Office of Clinical Experiences, Education Building, Suite 1107, prior to the orientation meeting:

1. Passing scores on Praxis Core Academic Skills, or Praxis I, or equivalent scores;
2. Passing scores on Praxis Subject Assessment(s), including individual sub-test score on the back package;
3. Passing scores on the required reading assessment (RVE for PreK-3, Pre-K-6 and Special Education programs);
4. Passing scores on the Virginia Communication and Library Assessment (VCLA)
5. All program content and professional education courses must be completed with the required grades;
6. The required GPA for your specific teacher education program;
7. Registration for the teacher candidate internship course, as noted on your program curriculum sheet;
8. A first aid/CPR/AED training certificate for infant/child/adult;
9. A copy of negative TB test or screening results completed within one year of the beginning of your teacher candidate internship experience. Please always keep a copy with you.
10. An Old Dominion University clearance (SP24 fingerprint, Social Services/Child protective services, and sexual offender clearance).
11. A child abuse and neglect training certificate.
12. A dyslexia training Certificate

Requirements for Successful Completion of the Student Teaching Internship

1. Satisfactorily completing your professional portfolio prior to the END of this experience;
2. Satisfactorily completing the Assessment of the Instruction Environment; and
3. Satisfactorily completing your instructional unit (impact on student learning) prior to the END of this experience;
4. Submission of Educational Benchmark Instrument (EBI) survey.
5. Submission of your self-evaluation of your professional disposition.
6. The successful completion of the professional attribute and instructional development scales evaluation (mid-term and final). This includes recommendation for hire by your clinical faculty, school administrator(s), and your university supervisor
General Information

Description of the Teacher Candidate Information
The teacher candidate internship is the culminating experience of all teacher education programs. This experience is a crucial part of a teacher candidate’s preparation to becoming a Professional Educator. During the internship experience, teacher candidates will do the following.

1. Observe the operation of schools.
2. Analyze the implementation of curricula and instructional strategies.
3. Observe the growth and development of students.
4. Assist with classroom and extracurricular activities.
5. Assume responsibility for the learners and the instructional activities.

The work of the teacher candidate is evaluated by the clinical faculty within the schools, in collaboration with the university supervisor.

Objectives of the Teacher Candidate Internship
The teacher candidate internship experience will provide candidates with opportunities to do the following:

1. Assess personal/social suitability for teaching and evaluate choice of teaching discipline and grade-level interest.
2. Experience all roles of a Professional Educator (instructional and noninstructional) through planned, sequenced activities in their 6, 10, 14-week, or yearlong program. The length of the internship is determined by the candidate’s program of study, the candidate’s program administrator, and in the individual teacher candidate’s needs.
3. Apply principles and methods from the knowledge base of the professional program.
4. Gain experience working with learners with diverse learning needs (special needs, low SES, ELL, gifted, military affiliated, etc.).
5. Experiment with alternative teaching strategies to increase learners’ knowledge.
6. Gain experience working with learners from diverse cultural, linguistic, and socioeconomic backgrounds.
7. Observe and practice effective strategies to manage the learning environment. Communicate and discuss all phases of experiences with both the clinical faculty and the university supervisor.
8. Develop and implement assessments and lessons with the goal of significantly impacting student learning.

9. Receive feedback from structured observations and conferences with suggestions for improvement from the clinical faculty supervisor and university supervisor.

10. Practice the skills identified in the instruments used to assess teacher candidates.

11. Gain knowledge and skills of classroom and school policies and procedures.

12. Gain knowledge and skills of parent involvement, activities and practices.

**Professional Seminars/Meeting Schedule During the Teacher Candidate Internship**

All teacher candidates are to participate in professional seminars during the internship semester. The purpose of the professional seminars is to link the university/school experience and practice to the knowledge base of the professional program. These seminars focus on the learning environment and school issues. They also include opportunities for discussion with peers and university faculty. Teacher candidates must attend all scheduled seminars. Make-up assignments will be required for any excused absences. A doctor’s note will be required for illness. Teacher candidates will provide the seminar schedule to the clinical faculty.

Teacher candidates must schedule an introductory meeting with clinical faculty upon receipt of their placement. University supervisors will schedule a meeting with the clinical faculty, teacher candidate and supervisor prior to starting the teacher candidate internship to ensure all parties understand their responsibilities.
Policies and Procedures for Internship

Internship Calendar
   Each semester, the Office of Clinical Experiences develops a calendar for the teacher candidate internship. The calendar provides the beginning and ending dates of each placement. All teacher candidates must complete either a 6-, 10-, or 14-week internship experience. The length of the experience is based upon the candidate’s program of study and the unique needs of the teacher candidate. Additional time may be necessary. This would be determined by feedback from clinical faculty, supervisors, and administrators.

School Schedule
   The teacher candidate is expected to follow the arrival and dismissal times established by the school for its regular teaching staff and to follow the clinical faculty’s daily schedule, including any assigned lunch, bus, or playground supervision. Attendance is expected at all faculty meetings, staff development workshops, open houses, parent-teacher conferences, IEP meetings, and other professional activities. Teacher candidates follow the holiday schedule of the school division/district to which they have been assigned, not the University calendar or holiday schedule.

Absence Policy
   Teacher candidates are expected to be at their assigned schools every day. Teacher candidates are required to sign in and sign out each day at their assigned schools immediately upon arrival and departure. Absences from internship are acceptable only in case of personal illness or death in the immediate family. In case of illness or a death in the immediate family, the candidate must contact the clinical faculty and university supervisor as early as possible, but no later than 7:00 a.m. the day of the absence. Teacher candidates are allowed one day of personal leave that may be used for personal business. In addition, teacher candidates will be excused one day for the Old Dominion University Teacher Education Job Fair during their student teaching semester.

   Excessive absence will result in extension of the internship experience or dismissal. Excessive absence is defined as over three days (i.e., two days of illness and one day of personal leave).

   Inclement weather will be reviewed on a division/district by division/district situation.
Substitute Teaching

Teacher Candidates CANNOT be used as substitute teachers. If the Clinical faculty member is absent, teacher candidates may assume classroom duties while a substitute is present. University supervisors must be notified by the teacher candidate if the clinical faculty is absent.

Additional Coursework and Outside Employment

The internship experience consists of professional seminars and the internship. All major content and professional educational coursework must be completed prior to the internship. Any other courses taken during the internship must be approved by the candidate’s advisor and the Associate Director of Clinical Experience. The internship experience is a full-time academic responsibility. Public Schools have expectations for the achievement and growth of their learners; therefore, teacher candidates must be prepared to devote their time and energy to internship duties and providing the best possible instruction environment for the learners. Outside employment during the teacher candidate internship may impede the teacher candidates’ performance and is highly discouraged. Candidates may not be employed in the school where they are completing their student teaching during the instructional hours. If a candidate is employed or taking classes, the teaching candidates’ internship takes precedence. Missing internship duties such as faculty meetings, IEP meetings, seminars, or parent/teacher meetings will result in a failing experience.

Internship with Mentor Option

In some instances, a teacher candidate may be offered a teaching contract prior to the start of or during the internship. If the candidate has completed all coursework, all assessments and other program requirements, has the appropriate GPA, is recommended by faculty and/or his/her advisor, has a bachelor’s degree and the school is willing to provide a qualified mentor, the Darden College of Education and Professional Studies will allow the candidate to complete the internship experience while under contract. The option must be approved in advance through the Associate Director of Clinical Experiences. For more information on this policy please go to http://www.odu.edu/content/dam/odu/col-dept/teacher-education-services/docs/school-division-acknowledgement-of-hiring.pdf

Professional Dispositions

All teacher candidates are always expected to conduct themselves in a professional manner during the internship experience. As a professional, all learners, parents, colleagues,
administrators and other individuals should be treated with respect. In addition, this professional behavior extends past the school day. Teacher candidates are expected to review all social networking materials to ensure all material is deemed appropriate for licensure of “positive moral character” for the Virginia Department of Education.

**School Policies**

Teacher candidates must follow the *local school division/district policies and procedures* as well as the individual school’s policies as they apply to regularly employed staff. Teacher candidates should become thoroughly familiar with school policies, read the faculty handbook and the teacher internship handbook, and know emergency procedures. Advocate for yourself and ask to see the policies.

**Corporal Punishment**

Teacher candidates **must not** administer corporal punishment to pupils under any circumstances.

**Change of Placement or Withdrawal**

Infrequently, a change of placement or withdrawal may be necessary. The school division/district or the university supervisor may request removal of a candidate from the field setting after discussion of the situation with the Associate Director of Clinical Experiences. Withdrawal procedures from teacher candidate internship requires significant discussion. The Associate Director of Clinical Experiences will inform the school division/district human resources office. **The procedure for withdrawal from the course through ODU is the same as for other University classes and is the responsibility of the teacher candidate. Failure to comply with university withdrawal procedures will result in a WF grade.**

Decisions concerning subsequent placement for internship situations are made by the Department Chair, Graduate Program Director, (or Program Coordinator), and the Associate Director of Clinical Experiences. University supervisors and teacher candidates should confer with the Associate Director of Clinical Experiences about the individual situation. Additional placements are not guaranteed by the Office of Clinical Experiences. In the rare event that the student teacher is requested to be removed by a building administrator, we cannot guarantee placement elsewhere.
**Placement at Schools with Relatives**
Teacher candidates may be placed in the same school division/district where a relative attends school or works. However, teacher candidates may not be placed in the same school where a relative is enrolled or works. It is the candidates’ responsibility to disclose if they have been placed at a school with a relative. If a candidate is found to be placed at a school where a relative attends or works, they will be removed from the placement and have to complete their student teaching in the next semester.

**Applying for a Virginia License**
Teacher candidates are responsible for applying for their Virginia teaching license. The checklist for applying for a Virginia Department of Education is in the back of the teacher candidate handbook. Please send the completed packet to Old Dominion University, Darden College of Education and Professional Studies, Office of Clinical Experiences, Education Building Suite 1107, Norfolk, VA 23529 for the Associate Director of Clinical Experiences to complete the College Verification.
Responsibilities of the Teacher Candidate

The primary role of the teacher candidate is to successfully carry out the internship assignment. The internship is viewed as a critical stage of transition from the status of college student to the status of *Professional Educator*. The internship is a privilege and therefore carries with it certain responsibilities.

**Introduction and Orientation**

Teacher candidates **MUST** attend a scheduled orientation session with the Associate Director of Clinical Experiences and an orientation session with their university supervisor. Teacher candidates must schedule an introductory meeting and introduce themselves to their clinical faculty prior to the beginning of the internship semester. This meeting will address the following:

**Time Commitments**

- Beginning and ending dates of semester
- When the school day begins and ends (teacher’s hours)
- School calendar – teacher candidates follow the division/district calendar
- Procedures and schedules for inclement weather and other emergency circumstances (fire drill, lock down, etc.)
- Reviewing the curriculum to be covered in the courses being taught by the clinical faculty
- Checking out textbooks and other teaching materials from the clinical faculty (If a teacher candidate checks out public school textbooks or borrows materials from clinical faculty, they are financially responsible for returning the items)
- Agreeing upon a plan for assuming teaching responsibilities
- Obtaining a Faculty Handbook and Student Handbook from the clinical faculty and reviewing administrative regulations and routines
- Becoming familiar with the existing learning environment and school management plan

**The First Two Weeks of Teacher Candidate Internship**

- Locate campus facilities to be used, (i.e., library, textbook room, audio visual supply room, department workroom, faculty lounge, auditorium, counseling facilities, etc.)
- Meet other members of the staff (i.e. principal and assistant principal, department chairperson, librarian, counselors, teachers’ aides, etc.)
• Become acquainted with the learners and prepare a seating chart as needed
• Observe and discuss class interactions with the teacher
• Become familiar with other daily procedures (i.e. staff check-in, check-out, bulletins, mailbox check, etc.)
• **Complete the Assessment of the Instructional Environment and discuss with University Supervisor at first visit.**

**Teaching the Class** – *Teacher candidates should plan to assume control of the class gradually.*

*To help this process, the teacher candidate should do the following:*

• Plan **cooperatively** for instruction. The plans *should include, but not be limited to,* instructional goals and objectives, anticipatory set, the subject material to be covered, the instructional procedures to be used, specific modifications for learners with special needs/disabilities, lesson closure, the audiovisual materials and other supplies to be incorporated, procedures to objectively evaluate learners’ achievement, and criteria for making adjustments in instruction.

• Provide clinical faculty and university supervisor with copy of lesson plans and all ancillary materials **3 days prior to teaching.** This allows for review and feedback.

• Systematically introduce a variety of teaching materials and strategies and **evaluate the impact** of each in order to determine those which are most appropriate. **Please see section two – impact on student learning** for further detailed instructions on how to conduct this unit.

• Develop and implement procedures for managing the class effectively during instruction based on academic and behavioral strengths and weakness, including group/individual techniques.

• Develop strategies to directly teach those learners who display difficulty in complying with classroom routine/expectations.

• Maintain sensitivity to learners from culturally, linguistically, socially, and economically diverse backgrounds.

• *Determine the learners’ development* levels and provide commensurate instruction.

• Participate in the evaluation and documentation of learners’ progress and attendance.
• Demonstrate an ability to continually assume greater responsibility in conducting the classes.

• Ethics – Be fair and consistent and demonstrate a belief that all learners have the ability to develop their skills and increase their knowledge. Your learners will respond to the level of expectations set for them.

Professional Obligations – *Teacher candidates must be responsible for their professional growth.* To accomplish this, candidates should do the following:

• Contact clinical faculty and university supervisor in a timely manner if illness prevents attendance.

• Become involved in the **total school program** by participating in school assemblies, faculty and department meetings, P.T.A. meetings, athletic events, stage productions, parent conferences, in-service activities, and educational partnership and school volunteer programs.

• Meet with the clinical faculty, apart from class time, on a **regular basis** to review the instruction to date, critique teaching performance, and assist in planning daily lessons for the upcoming week.

• Confer with the university supervisor on a **regular basis**.

• Provide the university supervisor with a classroom schedule **during the first week of internship**.

• Observe, if appropriate at the end of the semester, the teaching of other master teachers in the building. Arrangements must be made with the clinical faculty, the university supervisor, the principal, if appropriate, and with the teacher to be observed.

• Ongoing completion of one’s Professional Portfolio during internship experiences (**portfolio preparation process begins prior to internship**); Maintenance and submission of documentation. **Please see section two – Portfolio**- for further detailed instructions on how to conduct this unit

• Teacher candidates are responsible for completion and submission of certain evaluation documents. Candidates should do the following:
  
  o Keep a copy of all evaluations for your records.
Complete the evaluations of your university supervisor and clinical faculty (these evaluations are due at the completion of the internship experience through electronic submission).

**Questions Teacher Candidate Should Ask**

### General School Information
- May I have a floor plan of the building? A tour?
- What is the average class size? Total school population?
- Is there a school lunch program? Breakfast program? Dinner program?
- What are the facilities that can be used by the teacher and class, such as: audiovisual aids, maps, library, computers, and photocopier?
- What resource teachers (Nurses, Counselors) are available?

### Procedures and Policies
- What time do classes begin and end? What are the school’s hours?
- What will be my schedule?
- May I have more information on general school policies?
- What is the procedure if a teacher cannot be in school?
- What extracurricular activities and meetings will I be able to attend?
- What policies and procedures exist regarding confidential student records and student privacy, health and attendance information, classroom visitors, non-staff persons observed on school premises, and release of students for appointments?
- How is the teacher evaluation process conducted?

### Classroom
- How are SOL goals incorporated? What assessment process is used?
- What does the clinical faculty expect of me and what content/skills will I teach?
- What lesson plan format is acceptable? Are classes grouped by academic ability?
- What is the grading policy?
- What are the basic classroom rules?
- What are the school’s policies for discipline?
- Is there an interest inventory to learn about the learners?
- Do you expect a teacher candidate to contact parents?
• What expectations are there regarding emergency procedures and safety?

**Personal Concerns**

• How will I know how well I am doing?
• What is the professional background of my clinical faculty?
• May we establish a scheduled, routine time when we can discuss my performance?
• What is your philosophy of education?
## Checklist of Teacher Candidates Internship Experiences

The selected experiences listed below are generally present in the internship situation. Experience will vary according to the type of school you are in and the method employed by your clinical faculty, as well as the subject matter taught.

Responsibilities of the Clinical Faculty

The responsibility of the clinical faculty is to assist the teacher candidate in understanding and assuming the role of the Professional Educator. This demands supportive supervision, modeling, guidance, and feedback on the part of the clinical faculty. The minimum criteria for clinical faculty include the following:

a. A “continuing contract” licensed teacher
b. Willing to participate in workshops and meetings held for clinical faculty.
c. Have a valid, renewable teaching license.
d. Have a minimum of three years successful teaching experience.
e. Willing to accept the responsibilities of the clinical faculty position.
f. True desire to mentor pre-service teachers.

A successful internship experience most frequently occurs when the clinical faculty acts as a personal confidante, instructional guide, and professional advisor. The following pages review and give specific examples of each of these major responsibilities:

Professional Guide
1. Acquainting the teacher candidate with the school, staff, learners, teacher, parents and community by:
   - Conferring with the teacher candidate and building administrator to review division/district expectations during the workday, including the beginning and ending dates of the internship.
   - Introducing the teacher candidate to the school community and explaining his/her role in the manner which enhances the teacher candidate’s chance for success.
   - Creating an atmosphere of acceptance of the schoolteacher on the part of the learners, parents, faculty, and school community.
   - Touring the campus with the teacher candidate and providing a map of the school.
   - Reviewing school policies, regulations and practices.

Instructional Guide
2. Orienting the teacher candidate to classroom rules, organization and management by:
   - Sharing plans for creating a positive classroom environment and motivating learners to succeed.
   - Introducing the teacher candidate to classroom routines and rules, seating arrangements, and other organizational plans.
   - Familiarizing the teacher candidate with excuse forms, hall passes, and other standard school forms.
   - Reviewing and implementing the Student Handbook and the Faculty Handbook.
• Explaining and demonstrating/modeling procedures for notifying parents regarding grades and/or discipline policies including letters, phone calls, and conferences.

3. **Acquainting the teacher candidate with tasks. The clinical faculty should:**
   - Make the teacher candidate aware of the school calendar, announcements, schedules or changes in the daily routine.
   - Schedule the teacher candidate for assistance with lunch, recess, assembly, detention duties, clubs and sports, etc.
   - Provide teacher candidates with information and skills to complete the range of routine tasks such as lunch counts, tardies, passes, signed excuses, bathroom procedures.
   - Review division/district, school, and department policies regarding: attendance, lunch, playground, nurse, counselor, lockers, phone and leaving/returning to school.
   - Define authority and legal requirements of the teacher candidate in emergency situations (i.e. acts of violence, bomb threat, fire).

4. **Providing a desk or workplace, necessary instructional materials, resources, supplies and equipment. The clinical faculty should:**
   - Supply copies of textbooks, curriculum guides, charts, planning book, etc.
   - Explain the school’s policy of the use of copiers and paper allotments.
   - Take time to teach the teacher candidate how to use copiers, media equipment and other machines including computers.

5. **Guiding lesson plans and material development. The clinical faculty should:**
   - Explain goals and objectives in relation to scope and sequence.
   - Assist the teacher candidates in examining the Standards of Learning for the grade level they are assigned.
   - Assist the teacher candidates in examining and discussing the clinical faculty’s plans and the reasons for choice of methods, materials and activities.
   - Give specific help in the selection of instructional materials, including outside resources.
   - Assist the teacher candidate in developing his/her own teaching plans.
   - Demonstrate how to provide for individual learner differences.
   - Identifying and demonstrating methods to check for learner understanding and model how to monitor and adjust teaching.
   - Give constructive feedback on lesson plans **before and after lesson**.
   - Assist the teacher candidate in preparing a substitute folder.

6. **Providing for positive learning experiences. The clinical faculty should:**
   - Offer specific suggestions through various models (oral, written, and modelling) for developing effective teaching techniques. Provide both positive feedback and constructive feedback. Limit suggested changes to two or three at any one specific time. Monitor progress on the teacher candidate growth in the suggested areas.
• **Gradually** increase teaching responsibilities for teacher candidate until full-time responsibility for the classroom is achieved. Then, **gradually decrease** them at the end of the semester, allowing for a maximum amount of full-time teaching.

• **MODEL** effective teaching techniques when appropriate, even near the end of the internship experience.

7. **Modeling assessment of students’ performance, grades, records, diagnostic tests, and placement. The clinical faculty should do the following:**

   - Train the teacher candidates to document and maintain records of learners’ progress.
   - Identify learners with special needs, discuss and demonstrate appropriate instructional adjustments, and review legally required accommodations identified in the IEP.

**Professional Growth**

8. **Providing continuous support, conferences and feedback. The clinical faculty will:**

   - Provide for continuous evaluation through daily/weekly conferences, report sheets, logs and self-evaluation shared by the teacher candidate (i.e. audio/video tapes).
   - Provide for unsupervised teaching yet is still in close proximity and can be contacted at all times should help be needed.
   - Maintain a frank, helpful and professional attitude when discussing the teacher candidate’s strengths and areas in need of improvement.
   - Attempt to immediately resolve any conflicts; if no resolution is possible, refers the problem first to the university supervisor and school administrator, and second to the Associate Director of Clinical Experience.
   - Initiate early effective procedures for a teacher candidate in jeopardy.

9. **Afford opportunities for observation/participation in related activities. The clinical faculty should:**

   - Invite the teacher candidate to extend the teacher candidate experience beyond the immediate classroom by attending parent conferences, clubs, events, sports events, student council meeting and activities, PTA meetings and faculty meetings.

10. **Share personal/professional growth. The clinical faculty should:**

    - **Treat the teacher candidate as a co-worker rather than a subordinate.**
    - Exemplify a positive, professional attitude toward teaching and all persons engaged in the business of public education.
    - Set a good example through professional behavior toward learners, school, division/district and community.
    - Use and stress the necessity for proper language, actions, and dress by teachers.
    - Provide or suggest professional reading.
    - Emphasize the importance of joining/participating in professional organizations.
    - Assist in the development of the Professional Portfolio by the teacher candidate.
Responsibilities of the University Supervisor
The university supervisor is vital to the development of a high-quality field experiences program. As the liaison representing the Darden College of Education and Professional Studies and Old Dominion University, the supervisor will observe, evaluate and confer with teacher candidates and the clinical faculty. The minimum criteria for University Supervisors;

a. Master’s Degree in Education, Administration/Supervision or Endorsement Area in which the individual is supervising.
b. Five years of experience as a teacher or an administrator or equivalent.
c. Show evidence of genuine professional interest in developing professional educations and providing for positive learning environment and experiences.

This collegial team facilitates the planning, implementation, and evaluation of experiences that will increase the professional competence of the teacher candidate. University supervisors should ensure the purpose and goals of the Darden College of Education and Professional Studies Conceptual Framework, “Educator as Professional” knowledge base model is being met in the host classrooms.

Specific Responsibilities
1. Visitations and observations by the supervisor
   - Explanation to clinical faculty of university’s expectations.
   - Visits and observations of teacher candidates occur a minimum of every other week during the internship experience. More visits/observations may be required if the teacher candidate is experiencing difficulty and needs additional support.
   - The initial visit should occur during the first week of the internship experience.
   - Two observations should be scheduled when the teacher candidate assumes partial responsibility for the learning environment.
   - Three observations should be scheduled when the teacher candidate assumes full responsibility for the learning environment.
   - If a candidate is having difficulty, a university supervisor will model needed skills and develop a professional development growth plan collaboratively with the clinical faculty.
   - The final observation should occur shortly before the final evaluation.
The university supervisor collaborates with the clinical faculty in evaluating teacher candidates by providing equal input for the mid-term and final evaluation.

University supervisors will maintain a copy of all written feedback provided to candidates. All written documents/e-mails will be required to be submitted for candidates recommended for no hire/fail.

2. Components of observation: Observing the teacher candidate’s instructional performance is critical for professional development. The university supervisor must be able to provide specific, objective feedback. Observations consist of:

- Review of lesson plans.
- Observation and written documentation of the actual 45-90-minute lesson. This observation should include a discussion of the teacher candidate’s progress with the clinical faculty and teacher candidate.
- Identifying areas of strengths, specific areas of weakness, and strategies to improve area(s) for refinement.
- A review and feedback of the Assessment of Instructional Environment.
- A review of reflection journal and time record.
- If a teacher candidate has a specific area of weakness, the university supervisor will provide a variety of assistance. This could include verbal, written, demonstration of strategies, videotaping, etc.
- The university supervisor will report progress on the university supervisor report form.

3. Seminars:

- Supervisors are required to provide a minimum of four seminars scheduled throughout the internship experience.
- Supervisors will announce the times and places for seminars early in the semester.
- Content of seminars should address the specific needs of the teacher candidates.
- Review and set due dates for the Professional Portfolio and Impact on Student Learning projects.

4. Establishing rapport with clinical faculty and administration:

- Meets clinical faculty and exchanges telephone numbers the first week to facilitate communication daily.
• Is sensitive to the needs and concerns of the clinical faculty.
• Meets with school administration to share the ODU philosophy and ensure awareness of student teachers in the building.

5. **Relationship with the Associate Director of Clinical Experiences:**
   • Attends an orientation meeting prior to the start of the teacher candidate internship.
   • Notifies the Associate Director when candidates are having difficulty for any reason.
   • Submits a grade for each student prior to the last day of each semester.

**Recommended Timeline**

The internship semester is the most important semester in the professional teacher preparation program. The internship semester demands and should receive full attention. Unlike the practice, the internship experience will require the candidate to be a teacher five days a week, six and a half hours a day, for the length of the experience. However, it will soon be discovered that **the teacher’s day does not end at 4:00 p.m.** Lesson plans, preparation and grading may require continued work far beyond the eight-hour day. To be successful in the teaching internship semester, the teacher candidate may need to sharply curtail other activities, including employment. It is wise to remember that the final evaluation, written by the clinical faculty and university supervisors, **will be reviewed by all potential employers.** The faculty in the Darden College of Education and Professional Studies request that your time and energy be focused on this demanding, but exciting and rewarding experience. Teacher candidates are required to be on duty at their assigned school for the complete school day during the entire experience. The complete school day is defined as the duty for teachers in the building where the assignment is made. For example, if teachers are expected to be on duty from 7:30 a.m. to 3:30 p.m., that is the teacher candidate’s teaching day. The professional day includes in-services, parent conferences, and attendance in all professional meetings.

The following pages will detail the activities and responsibilities for the teacher candidate, clinical faculty, and university supervisor during each phase of the teacher candidate experience.

PHASE-IN SCHEDULE

PHASE I: ORIENTATION/INTENSE PARTICIPATION

Teacher Candidate
- Becomes familiar with rules, regulations and procedures of the classroom. Develops skill in communicating rules to pupils.
- Becomes familiar with physical features of the building/s.
- Becomes acquainted with and learns names of pupils. Becomes aware of friendships and sub-groups and with unique needs of the individuals.
- Observes instruction, following lesson plans prepared by clinical faculty.
- Participates in classroom routine (i.e. roll taking, recording grades, handing out/collectiong material, supervision outside classroom) and learns daily schedule.
- Provides limited instruction (i.e. administering tests, tutoring, conducting short, informal segments of the lesson).
- Participates in related activities when appropriate (i.e. faculty meetings, athletic events, student clubs).
- Tutors individual learners or small groups as assigned by clinical faculty.
- Constructs teaching aids and contributes materials to a motivating, attractive learning environment.
- Becomes familiar with content to be taught later in the semester.
- Keeps the reflective journal and time sheet up to date.
- Completes the Assessment of Instructional Environment.
- Updates the Professional Portfolio.

Clinical Faculty
- Has responsibility for planning and conducting class but involves teacher candidate in lesson planning. Shares long-range plans for semester.
- Involves teacher candidate in observation, routine procedures, preparation of materials and interaction with students.
- Sets aside special time to discuss the rationale of what the teacher candidate is observing.
- Establishes standards for initial lesson planning.
- Provides specific feedback to teacher candidate.

University Supervisor
- Holds orientation meeting.
- Conducts seminars as scheduled.
- Discusses Assessment of Instructional Environment.
• Meets with teacher candidate and clinical faculty about the mid-term internship evaluation.
• Is readily available for the advice/support for either the teacher candidate and/or clinical faculty.

PHASE II: ASSUMING PARTIAL RESPONSIBILITY

Teacher Candidate
• Increases efforts to identify special characteristics of the learning environment and relates instruction to individual learners; meets with individual learners having problems; and, determines how to utilize special learners’ talents.
• Manages all routine classroom tasks.
• Assumes full instructional responsibility for part of the school day. Gradually assumes greater responsibility for instruction by accumulating teaching responsibilities, and adding one subject, or period, or preparation as teaching proficiency increases.
• Continues to develop instructions for lessons.
• Participates in faculty meeting, parent teacher conferences, PTA meetings, etc.
• Continues to keep reflective journal and time sheet up to date.
• Continues updating professional portfolio.
• Begins assessment process for Impact on Student Learning Project.
• Asks clinical faculty and university supervisor for specific feedback on instructional performance.

Clinical Faculty
• Plans cooperatively with the teacher candidate the delivery of instruction, starts with small tasks, such as directing cooperative learning groups; jointly develops evaluation instruments; re-teaches concepts to small groups; and provides enrichment activities.
• Continuously assess the teacher candidate’s level of competence in instruction and of the learning environment management so that the teacher candidate can gain confidence before assuming additional responsibilities.
• Models a variety of instructional techniques so that the teacher candidate develops a comfort level for a broad spectrum of teaching activities.
• Completes and reviews with the teacher candidate and university supervisor, the Professional Attributes and Instructional Development Scales (mid-experiences).

University Supervisor
• Conducts at least three observations of the teacher candidate.
• Conducts seminars as scheduled.
• Meets with teacher candidate and clinical faculty about the mid-term internship evaluation.
• Reviews with the teacher candidate the Professional Portfolio and Impact on Student Learning activity.
• Is readily available for advice/support for either the clinical faculty or teacher candidate.
PHASE III: FULL RESPONSIBILITY

Teacher Candidate
- Assumes primary responsibility for planning, preparing, delivering instruction, and monitoring learners’ progress and evaluation.
- Implements an effective discipline plan, including contacting parents if necessary.
- Assumes primary responsibility for developing the instruments for student evaluation.
- Recommends student grade to clinical faculty.
- Completes Impact on Student Learning project.
- Provides instruction that recognizes individual learner’s needs.
- Continues to keep reflective journal and time sheet up to date.
- Submit final Professional Portfolio by date established by University Supervisor.
- Asks the school principal to observe lesson and provide feedback.
- Completes university supervisor’s evaluation.

Clinical Faculty
- Examines, critiques, and provides necessary approval of teacher candidate’s plans for instruction and evaluation.
- Contributes to the class instruction in ways that are complementary to the general class presentation under the direction of the teacher candidate.
- Completes the final evaluation of the teacher candidate in collaboration with the university supervisor.
- Coordinates for the evaluation of teacher candidate by school administration.

University Supervisor
- Conducts at least three observations of teacher candidate.
- Conducts seminar as scheduled.
- Grades Impact on Student Learning project.
- Meets with teacher candidate and clinical faculty to discuss the final internship evaluation.
- Is readily available for advice/support for either the teacher candidate and/or clinical faculty.
- Submits final grade and internship evaluation to the Associate Director of Clinical Experience.
Questions from Clinical Faculty

There are some questions that are asked repeatedly by clinical faculty. Many of these questions cannot be answered unequivocally, but perhaps some insights will help guide the clinical faculty.

How frequently should I leave the classroom? Should the teacher candidate be left on their own?

A survey of clinical faculty found that they were most critical of the clinical faculty who spent a great deal of time away from the classroom. The view of most clinical faculty is that teacher candidates should not be regarded as substitutes. Rather, they should be viewed as novice teachers placed in the classroom to learn and grow professionally with the direct help and supervision of experienced teachers, without clinical faculty feedback, the internship experience becomes much less effective for the beginners. Yet, it is also important for the teacher candidate to have a sense of managing the class on his or her own. Therefore, it may be advisable for the teacher candidate to “solo” occasionally for the short periods of time. However, the clinical faculty should be in proximity. In the final analysis, the clinical faculty retains the responsibility for the classroom, the students and the teacher candidate.

What should I do when the university supervisor comes to visit?

The university supervisor does not wish to disrupt the class. Therefore, go on with whatever has been planned. Each supervisor’s visit should include a discussion with clinical faculty and the teacher candidate. This discussion should not interrupt the regular classroom schedule.

What should be done when either the teacher candidate or the clinical faculty fails to assume responsibilities?

Realizing that each partner may have a different perception of a situation, both parties should make an effort to communicate with the other on a one-on-one basis. If this approach fails to produce the needed results, one or both should contact the university supervisor who can then communicate with them individually and/or jointly to resolve the problem. If this does not resolve the problem, the Associate Director of Clinical Experiences for Old Dominion University should be contacted immediately.

What do teacher candidates want clinical faculty to do?
When surveyed, teacher candidates’ rate “being observed and receiving feedback on a regular basis from their clinical faculty” as their greatest need. It is difficult to imagine that a clinical faculty and teacher candidate can spend many hours each week in the same classroom without communicating about the teacher candidate’s performance. But the fact is, this is the most serious problem in the teacher candidate experience. Here is a list of reasons that appear to deter effective communication/feedback:

- Overly concerned about “hurting the feelings” of the teacher candidate.
- Lack of time before or after school due to the demands of preparation, lunchroom or playground supervision.
- No time during the school day since one or both of the parties must be working with pupils.

For the teacher candidate to be able to grow professionally, these obstacles must be overcome.

What can be done about teacher candidates with glaring educational problems, such as inability to use standard written or oral language?

One of the mysteries of the internship experience is how an individual can be in the last semester of a professional preparation program and lack these skills. One explanation may be that these inadequacies are only apparent when the teacher candidate must write on the board or give oral instruction before the class. These difficulties must be corrected and require attention of the university supervisor, clinical faculty, and the teacher candidate. Some of them can do it quite rapidly, while others might have to repeat or extend the internship experience.

What if my teacher candidate is failing?

Teacher candidates experiencing difficulties typically receive many more hours of help than do more successful teacher candidates. In addition to the clinical faculty, the university supervisor, building principal, and Associate Director of Clinical Experiences are involved in the remediation process. Teacher candidates who are in jeopardy of not successfully completing their internship experiences are placed on a professional growth plan. The purpose of the plan is to identify specific areas that require improvement and to outline a plan of action for remediation. If a clinical faculty observes inadequate performance, the university supervisor should be notified immediately. The supervisor will contact the Associate Director and a conference will be scheduled. During the conference, the content of the professional growth plan will be formulated, with input from the teacher candidate, the clinical faculty, the supervisor, and the Associate Director.
PART TWO

TEACHER CANDIDATE ASSIGNMENTS

Assessment of The Instructional Environment, Impact On Student Learning, and Professional Portfolio
Assessment of the Instructional Environment

Directions

The Assessment of the Instructional Environment is completed during the first week of student teaching. The purpose of this assessment is to provide the teacher candidates with contextual information for planning and implementing effective instruction. The objective is to gather information about individual learners in the classroom, their diverse learning needs, the classroom organization, possible interruptions/disruptions to the learning environment, and available educational resources. Teacher candidates are to complete the assessment form and narrative statement and discuss the implications for instruction with the university supervisor during the first visit.

**Check one**

**Teaching Interruptions**

- Few Interruptions
- Some Interruptions (describe in narrative)
- Many Interruptions (describe in narrative)

**Check one**

**Room Organization**

- Well Organized
- Adequately Organized
- Poorly Organized

**Check One**

**Resources: Equipment and Supplies**

- Well Equipped and Supplied
- Adequately Equipped and Supplied
- Poorly Equipped and Supplied

**Time**

**Time On Task**

- Time spent each day on instruction
- Time spent each day on transactions
- Time spent each day on "non-academic activities" (free time, waiting, trying to start class or redirect inappropriate behavior, etc.)

**Narrative**

Describe your instructional environment and learners. In the description, review the composition of your learners and their learning needs. Also, discuss the “average” number of disruptions in your class per day and the type of disruptions. How will these disruptions and how well your learning environment is equipped and supplied impact how you will plan and deliver your instruction? This information should be reviewed with your university supervisor as your first classroom journal assignment.
**Impact on Student Learning**

Like the clinical faculty they will be working with, teacher candidates will be responsible for student learning. For teacher candidates to determine the impact they are having on the students they are teaching, they must have knowledge and skills in planning and assessment.

Teacher candidates must complete the Impact on Student Learning Project. Completion of this culminating activity demonstrates expertise both in content and pedagogy, as well as reflection on clinical and classroom experiences. The purpose of these products is to demonstrate evidence of professional competence in university, state, and national professional teacher preparation standards.

Members of the DCEPS faculty will evaluate the product to determine whether a teacher candidate has successfully met the learning targets of this activity. The Impact on Student Learning Project is submitted through LiveText.

The Impact on Student Learning Project consists of seven sections: educational context; development, administration and analysis of pre-test; unit learning goals, standards, and objectives; development, administration and analysis of post-test; and reflection on teaching and learning. Each of these is detailed below.

1. Educational context
2. Pre-test
3. Analysis of pre-test data (graphic and narrative)
4. Planning & Instruction
5. Post-test
6. Analysis of post-test data (graphic and narrative)
7. Professional Learning & Reflection

**Educational Context**

Teacher candidates should clearly and thoroughly understand the contextual factors relevant to instructional planning. Data collection begins with the Assessment of the Instructional Environment (p. 33-34) Teacher candidates should demonstrate knowledge of students' varied approaches to learning, students' skills and prior learning, and classroom, school and community factors affecting student learning. There should be a logical connection between the relevant factors described and your instructional planning.

**Pre-Test**

Teacher candidates must align learning objectives directly with their pre-test. A description of how the pre-test was developed or selected must include the connection to instruction and alignment with standards of learning. A copy of the pre-test is to be submitted as an artifact.

**Analysis of Pre-Test Data (graphic and narrative)**

Teacher candidates should provide the data from the results of the pre-test. The pre-test data should be disaggregated by individual student. An analysis of the data from the pre-test should include reviewing class means, individual student scores (no names when reporting data), sub-group comparisons (gender, age, ethnicity, and diverse learners), range, and percentages and be presented in both graphic (charts, graphs etc.) and narrative formats. Analysis should also
include suggestions for making instructional decisions for the different sub-groups. Provide information of how the teacher candidate will use this data to make instructional decisions associated with the requirements of the content and the needs of students.

**Planning & Instruction**

Teacher candidates will use the DCEPS lesson plan to create a series of lessons. The plans MUST provide developmentally appropriate learning goals aligned with state standards, specific learning objectives, plans for communicating clear expectations to students, overall methods of instruction, and how to plan to assess student learning during the process (include pre-tests, formative assessments, and post-tests). Effective use of technology must be represented in the series of lessons, so consider opportunities to include technology-enhanced activities for extension or differentiation of learning. Provide a copy of the lesson plans with this assignment. Teacher candidates should ask their University supervisor or clinical faculty for feedback on plans. Use the results from the pre-test to modify instruction to better meet student needs. Provide instruction and monitor student progress toward meeting the learning expectations. Deliver instruction to students and carefully monitor the progress of each student through the learning process. Make additional modifications for individual students or the whole class as needed based on this monitoring and provide learner feedback.

**Post-Test**

Teacher candidates should provide a description of the post-test given to the class. Include teacher candidate expectations, and specific learning objectives considered when creating or selecting the post-test. A copy of the post-test is to be submitted as an artifact.

**Analysis of Post-Test Data (graphic and narrative)**

Teacher candidates should provide the data from the results of the post-test. The post-test should be disaggregated by individual student. An analysis of the results of the post-test should include reviewing class means, individual student scores (use a student variable not name when reporting data), sub-group comparisons (gender, age, ethnicity, and diverse learners), range, and percentages and be presented in both graphic (charts, graphs etc.) and narrative formats. Analysis should also include suggestions for making instructional decisions for the different sub-groups. Provide information of how the teacher candidate will use this data to make instructional decisions associated with the requirements of the content and the needs of students.

**Professional Learning & Reflection**

Based on the evidence of student learning, teacher candidates should identify insights on effective instruction and assessment. Teacher candidates should draw conclusions based on the tests and analysis of learning results, as well as research and theory. In the discussion of student learning and effective instruction, teacher candidates should make logical connections between the learning goals and learning objectives, instruction, and assessment results. Consider including in reflection reasons for the levels of performance on your post-test (e.g., Were there items on which students performed better or worse? Were the learning objectives appropriate given students’ prior knowledge, motivation, learning preferences?) Teacher candidates should reflect on the implications for future teaching, as well as implications for professional development.

## PLANNING AND PREPARATION

### Content Knowledge
How was this lesson developed based on your research and knowledge of content and the discipline?

### Learner Differences
How did this lesson develop as a result of your examination of research and data about student learning needs, how diverse students learn your content/lesson topic and how you can employ culturally sustaining pedagogies, difficulties students might have, gaps in their knowledge, assets they have, and so on?

### Outcomes/Goals
What will students be expected to know or do as a result of this lesson? Are these learning target(s)/outcome(s) appropriate based on your prior assessment/knowledge of students’ understandings? Are your targets/outcomes observable and measurable? What are your essential questions that align with the outcomes? List all outcomes associated with this lesson.

### Standards
Which content, state, and national standards connect with your outcomes? List the state, content, and national standard or standards that are being addressed.

### Resources and Materials
What resources and other materials will be incorporated and how will they promote active learning? Be specific. List all materials and resources needed for the lesson.

### Technology
Does technology enhance the design and delivery of your lesson? Does the use of technology promote active learning? Be specific. List all technology needed for both students and teacher.
INSTRUCTIONAL DELIVERY

Learning Environment How will you support individual and collaborative learning and foster positive interaction in the classroom?

Introduction/Activating Strategies How will you engage learners in the lesson and learning? How will you launch the lesson? How will you activate prior knowledge?

Instructional Strategies What learning activities do you have planned for the students? Include a variety of teaching strategies (methods). Activities are to be learner-centered (e.g., solve problems, construct models, design and perform experiments, read authentic resources, answer open-ended questions, support ideas with evidence, compose, analyze and interpret maps, draw conclusions.) Include guided process of learning. Include the opportunities learners will have to expand and solidify their understanding of the concept and/or apply it to a real-world situation. List any independent practice activities.

Closure How will you bring closure to the lesson?

Differentiation How will you adjust instruction, including incorporating technology, to meet the needs of a diverse set of learners?

Assessment: How will you measure understanding of the outcomes and standards? What type(s) of formative and summative assessment tasks/instruments (e.g., test, paper) and rubrics will be used?

PROFESSIONAL LEARNING

Reflection How will you evaluate your practice? Where did learners struggle in the lesson? How can the lesson be strengthened for improved student learning? Did the lesson reflect culturally sustaining pedagogies?
Lesson Plan Scoring Guide.

Introduction to the Professional Portfolio

What is professional portfolio?

A professional portfolio is a tool judiciously and carefully crafted to approximately showcase the work of a professional educator while providing evidence of career growth. It is NOT simply a gathering of all the lesson plans, papers, and assignments completed during a designated time period that has been placed in a notebook/scrapbook. Campbell, Cignetti, Melenyzer, Nettles, and Wyman (1997) defined a portfolio as being an organized goal-driven exhibit providing evidence of understanding and performance.

As a candidate in Darden College of Education and Professional Studies’ teacher preparation program, the portfolio you develop is an evolving structure that will help document growth over time. It promotes self-reflection and critical analysis in ways that help you understand the complexities of teaching. Serving as a thread that weaves all parts of the teacher preparation program together, the portfolio helps you integrate knowledge and basic skills from across diverse courses and experiences during your years of study. The portfolio process allows you, as well as your instructors, to visualize the entire conceptual framework of teacher as professional educator with all the diverse theoretical and practical activities that shape learning.

A professional teaching portfolio offers you a means of presenting your case coherently. It shows school officials why your candidacy is worthy of special notice and gives them the opportunity to view materials beyond those in the professional credentials file you submit to a school division as part of your application for employment. Your portfolio design can showcase your strengths and abilities in a way that is both professional and uniquely your own.

It includes a variety of documents to highlight your professional achievements in a cohesive manner and may be in paper or electronic format. You are encouraged to consider an electronic format because it offers the distinct advantages of portability, accessibility, and connectivity. Additionally, it can easily be updated and revised and provides unique opportunities for demonstrating technological expertise.

What is the portfolio process?

Your portfolio can be a perpetual workspace in which to examine and evaluate various aspects of your teacher preparation program. While initially you will want to collect everything that might be of interest, from videotapes of teaching to informal learner evaluations to papers on relevant topics, your portfolio will be more than just a scrapbook collection.

The key to the portfolio process is in understanding the relationship between the portfolio organization, material collection, selection of material, and reflection of growth. A portfolio only begins to take shape as you select and arrange the evidence contained in your collection with a particular audience or purpose in mind. Then, when you go on to compose reflections exploring the meaning of the evidence, your work folder is transformed into a potentially powerful document- your professional portfolio- representing a self-aware professional.
Organization

The portfolio is organized into four (4) sections – Portfolio Overview Statement, Professional Preparation, Pre-service Teaching Competencies, and Reflective Behavior and Strategies to manage the learning environment.

Collection

Each section identifies specific artifacts to be included in the portfolio. You may want to become a “pack rat”, collecting everything related to your work as a teacher. Read the definition for each artifact and include only the best representation for that artifact. Example artifacts may include items such as:

- Lesson plans
- Unit plans
- Journal reflections
- Curriculum materials
- Field experience evaluation forms
- Samples of learner work stemming from lessons you have taught
- Video & audio tapes
- Curriculum maps
- Photographs
- Papers &/or reviews of professional readings
- Administrator feedback
- Letters of recommendation and appreciation
- Activities in professional organizations
- Certificates
- Honors and awards
- Written reflections on the meaning of teaching

Keep journals and write regularly about your thinking, what you are reading, and what you are doing. What did learners do that excited you as a teacher? What did learners bring with them that allowed you personally to learn?

Selection

Three general rules can help you select those items from your collection that will show who you are as a teacher:

1. Explain the artifacts. Orient your supervisor to the connection you see between the standard and the artifact.
2. Consider variety and flexibility when selecting artifacts.
3. Include no less than the minimum requirements for the portfolio
1) **Explain the artifacts.**

Through detailed descriptions in Section II you will show the reader how each artifact illustrates the multiple competencies you have addressed as a teacher. Include specific examples from the artifacts when you refer to them to draw out their unique features. Artifacts should be related to the ODU conceptual framework and to your professional organization. Your written explanation of the artifacts will demonstrate how you have grown in understanding over time.

2) **Consider variety and flexibility when selecting artifacts.**

Include as many kinds of artifacts as possible to make the portfolio interesting and to show your diversity. Different types of lesson plans, pictures, and assessments will mostly come from your impact on student learning project and unit plan. In addition, it will come from the behavior reflection and learner work.

3) **Include no less than the minimum requirements for the portfolio.**

Ensure all items are included.

Requirements for the portfolio are found in the portfolio checklist. See the details in each section from I and II.

*Final Note*

Please note that since your portfolio is an evolving document, it is beneficial to select items that give evidence of growth and change in your philosophy and understanding of the interrelationships of the coursework and classroom experiences as you progress through the program. Since portfolio assessment for teachers as professionals is being endorsed at state and national levels in the United States, you will want to continue to develop your portfolio as you move through your teaching career.

**Portfolio Overview Statement**

Submit a one-page statement that provides an overview of your portfolio. In this overview summarize YOUR GROWTH throughout your program and student teaching semester to include professional preparation, teaching competencies, and strategies to manage the learning environment.

**DEVELOPMENT CHECKLIST FOR PROFESSIONAL PORTFOLIO (PRESERVICE)**

I. **Professional Preparation (All elements required.)**

A. **Candidates Information**
- Candidate’s First Name
- Candidate’s Last Name
- UIN
- Candidate Status (UG, GR, Post-baccalaureate endorsement)
- Academic Year
- Semester
- Program/Endorsement Area

B. **Statement of Personal Teaching Philosophy**
2-4-page discussion of your personal teaching philosophy as a professional educator in your specific discipline. Be sure to discuss your philosophy in terms of the Darden College of Education and Professional Studies Conceptual Framework.

C. **Resume** – The resume should be no more than two pages long and should highlight educational experience.

D. **Graduate and undergraduate transcripts** – Unofficial transcripts are appropriate until the end of approved program experience.

E. **Professional Assessments score reports (PRAXIS I/ Praxis Core or equivalent scores on SAT or ACT, Praxis II, VCLA, and RVE/VRA where applicable)** – All licensure tests should be included. They will be required when applying for positions. Institutions of higher education will not be able to provide copies.

F. **Child abuse and neglect recognition reporting certificate and First Aid, CPR, AED training.** These items will be required when applying for a Virginia teaching license. Each item must be current.

G. **Letters of recommendation (3-5).** Letters of recommendation must be professional in nature. Letters from parents and friends are not appropriate.

H. **Copies of all testing certifications and licenses.** Include any type of certificate or license that may assist you in obtaining a position. This could include physical training, lifeguard, sign language, driver’s license, etc.

I. **Evaluations** – Observation, practicum, and teacher candidate internship.
II. Pre-service teaching Competencies (All elements required.)

The Professional Portfolio Committee devised a common core of competencies which were inspired by those standards recommended by professional organizations and utilized by NCATE/CAEP for purposes of accreditation. The professional education organizations included: Association for Childhood Education International (ACEI), International Technology Education Association/ Council on Technology Teacher education (ITEA/CTTE), National Association for the Education of Young Children (NAEYC), National Council of Teachers of English (NCTE), National Council of Teachers of Mathematics (NCTM), National Middle School Association (NMSA), National Science Teachers Association (NSTA) and National Council for the Social Studies (NCSS).

While the process of developing a portfolio may seem like a daunting task at first, the key to making this task manageable is to follow the guidelines provided for developing the portfolio. These guidelines will define expectations for each section of your portfolio. They have been provided to help you as you begin your portfolio preparation and are required components of your portfolio; however, you are encouraged to extend beyond these requirements so that your portfolio becomes a document that reflects your creativity and individuality. Remove from artifacts all reference to K-12 school names, and learner names. Use aliases if necessary.

These artifacts should come from the unit in the “Impact in Student Learning Assignment”, and other supplemental materials from your program of study. Per competency, write a one-half to one-page reflection addressing your growth as supported by reference to 2-4 artifacts. Be sure to clearly describe in what ways each referenced artifact illustrates your growth. For each of the following indicators the candidate will provide evidence of growth in knowledge, understanding and disposition, including design and appropriate use of:

</table>
Candidates are required to collect artifacts during the completion of the “impact on student learning unit”, or other supplemental materials which will support the following standards-based competencies.

A. Learner-centered and/or differentiated instruction providing for special needs learners and individual learner needs.

Candidates provide evidence that they:

- Honor individual differences among learners by utilizing multiple approaches to thinking and learning
- Develop and implement an integrated curriculum that focuses on children’s needs and interests.

B. Instructional and curricular adaptations for multicultural, ethnic, socio-economic, and linguistic diversity, and gender equity.

Candidates provide evidence that they:

- Plan instructional activities appropriate to the needs of culturally, ethnically, economically, and linguistically diverse learners and those with exceptional learning needs.
- Use their knowledge of learner diversity to affirm and support full participation of all learners.
- Use a variety of approaches to instruction in diverse settings and with learners with diverse backgrounds, interests and abilities.

C. Developmentally appropriate instruction

Candidates provide evidence that they:

- Know, understand, and use the major concepts, principles, theories, and research related to the development of children and young adolescents.
- Consider, accommodate, and integrate the cognitive, linguistic, physical, social, and emotional development characteristics of children and young adolescents.
- Plan and implement developmentally appropriate/responsive curriculum and instructional practices based on knowledge of individual children, the community, and curriculum goals and content.

D. Standards-based instruction

Candidates provide evidence that they:

- Know and understand the major concepts and principles of their teaching discipline(s) as defined by educational state and national standards.
- Relate plans and resources to professionally developed state and national standards.
E. Candidates will demonstrate the essential knowledge, skills, and processes in the content area they will be endorsed in and demonstrate the ability to deliver instruction that uses inquiry, critical thinking, and problem-based learning within and across various disciplines.

Candidates provide evidence that they:

- Know, understand, and use the central concepts, structures of content and tools of inquiry for learners across the grades.
- Know, understand, and use the connections among concepts, procedures, and applications from content areas to motivate learners and build understanding.
- Teach the basic concepts and skills of inquiry and communication as integral to all learning.
- Cultivate skills in recognizing and solving problems.
- Help learners develop lifelong habits of critical thinking and judgement.

F. Engagement of learners in the studies of the nature of the respective disciplines

Candidates provide evidence that they can define the values, beliefs, and assumptions inherent to the creation of knowledge within their respective fields and contrast that knowledge to other ways of knowing. Nature of the discipline refers to characteristics distinguishing the discipline from other ways of knowing; i.e., characteristics distinguishing basic science, applied science, and technology; processes and conventions of science as a professional activity; and standards defining acceptable evidence and scientific explanation. Candidates engage K-12 learners effectively in studies of the nature of science and conventions of scientific explanation. Candidates should think of this standard as a way to connect students to the things “real scientists” or “real authors” or “real artists” do, for example.

G. Authentic learning experiences providing for connections to human values and endeavors, as well as the personalities, needs, and interests of the learners.

Candidates provide evidence that they:

- Encourage the application of knowledge, skills, tools, and ideas to real world issues.
- Help learners realize how knowledge, skills, and ideas relate to their lives and to other real-world situations.
- Know and understand the relationship of various disciplines to other human values and endeavors.

H. Integration of technology and media resources for instruction, classroom organization, and pupil learning.

Candidates provide evidence that they:
Know that technology includes, but is not limited to, devices including cell phones, tablets and laptops, web applications and apps, software, learning management systems, and a variety of relevant multimedia.

Use a variety of resources, including technology, and nonprint materials.

Understand and use appropriate technology to help learners become capable technology users through communication.

Develop the ability of the learners to apply technological knowledge and skills.

Select appropriate instructional technologies to effectively teach all learner populations

I. Various formal and informal methods of assessment and evaluation of learners utilized to inform instruction and learning.

Candidates provide evidence that they:

- Use assessment as an integral part of instruction and learning
- Align their instructional and assessment practices.
- Use formative and summative methods to determine learners’ understanding and to monitor their own teaching effectiveness.
- Use a variety of formal and informal assessment techniques (e.g., observation, portfolios of learner work, teacher-made tests, performance tasks, projects, learner self-assessments, peer assessment, and standardized tests.)

III. Reflective behavior and strategies to manage the learning environment

(All elements required)

Reflect on a behavior encountered during student teaching that was challenging. Document how you handled the situation. Answer the following questions:

<table>
<thead>
<tr>
<th>A</th>
<th>Reflect on an individual learner behavior or a classroom behavior encountered during student teaching that was challenging</th>
</tr>
</thead>
<tbody>
<tr>
<td>B</td>
<td>Document how you handled the situation.</td>
</tr>
<tr>
<td>C</td>
<td>What type of strategies did you use?</td>
</tr>
<tr>
<td>D</td>
<td>What was the outcome (successes and frustrations)?</td>
</tr>
<tr>
<td>E</td>
<td>Did you believe the overall outcome of your strategies was successful (why or why not)? Please explain.</td>
</tr>
<tr>
<td>F</td>
<td>What areas of growth did you experience from implementing this plan and working with this learner and/or group?</td>
</tr>
</tbody>
</table>

Behavior is one of the greatest challenges today’s teacher faces, especially when students getting special education services are in inclusive classrooms. This section is designed to provide the candidate with the opportunity to observe and practice strategies to support their students. The
goal is to create an instructional environment that increases the likelihood of increased student success.

A. Observe and practice principles of effective classroom management.

Candidates provide evidence in their reflective journal that they:

- Establish effective classroom expectations.
- Develop and maintain predictable classroom schedules and routines.
- Consider learner’s needs in establishing group strategies.

B. Observe and practice the principles of effective behavior management.

Candidates provide evidence in their reflective journal that they:

- Use reinforcement strategies to promote positive learners’ responses.
- Collect and analyze data to assist in the decision-making process.
- Apply behavior change procedures as consistently and immediately, as possible.

C. Use a range of strategies to promote positive relationships, cooperation, conflict resolution, and purposeful learning in the classroom.

Candidates provide evidence in their reflective journal that they:

- Implement and monitor research-based strategies.
- Work as a member of the instructional team.

D. Create learning communities in which learners assume responsibility for themselves and one another, participate in decision-making, work collaboratively and independently, and engage in purposeful learning activities.

Candidates provide evidence in their reflective journal that they:

- Teach and reinforce individual accountability in the classroom.
- Provide opportunities for students to work cooperatively on various tasks.

E. Understand and use appropriate and effective interpersonal and small group communication techniques to create an effective learning environment.

Candidates provide evidence in their reflective journal that they:

- Use effective interpersonal communication strategies to communicate with learners, colleagues, and parent/guardians.
- Teach learners skills that will increase their ability to communicate effectively.

F. In reviewing items, A-E above, explain how you grew as a professional.

Candidates provide evidence in their reflective journal that they:
Use effective strategies to develop individual learner behavior and/or classroom behavior encountered during the student teaching experience.

Provide evidence of successes and/or frustration of strategies used to work with individual learner behavior and/or classroom behavior.

PART THREE

EVALUATION PROCEDURES
EVALUATION

ROLES OF THE CLINICAL FACULTY AND UNIVERSITY SUPERVISOR

The purposes for evaluating teacher candidates parallel those of teacher evaluations.

- To improve instruction by providing constructive feedback regarding strengths and weakness.
- To provide documentation to the university.
- To provide documentation to prospective employers regarding the progress the teacher candidate has demonstrated during the internship experience.

In any evaluation process, the purposes are best served when the evaluator has frequent and regular opportunities to observe and coach. Therefore, the clinical faculty maintains the primary role as evaluator of the teacher candidate’s daily performance in the classroom.

The role of the university supervisor has been defined as that of a student advocate, a supporter, collaboration with clinical faculty, and a link between the public school and the university. During the university supervisor’s visits, she/he will observe the teacher candidate’s instructional skills, management skills, professional attributes and provide feedback. During conferences with both the clinical faculty and the teacher candidate, the university supervisor will facilitate discussion about the teacher candidate’s classroom performance. Because of the frequency of the visits by the university supervisor, she/he can determine early in the semester whether a recommendation to the Associate Director ought to be made concerning a placement in an alternative setting. Otherwise, assuming the placement is appropriate, the university supervisor’s primary role is to facilitate success.

The clinical faculty and the university supervisor jointly evaluate the teacher candidate at the mid-point and at the end of the internship experience. Then together present the evaluation to the teacher candidate. If there is a discrepancy in perceptions between the clinical faculty and the university supervisor regarding the teacher candidate’s performance both a school administrator and the Associate Director of Clinical Experiences will attempt to mediate. If mutual agreement cannot be reached, the university supervisor may attach his/her own evaluation of the teacher candidate for the placement file indicating his/her perceptions of the teacher candidate’s strengths.

DIRECTIONS:

The purpose of the Framework for Teaching Evaluation Instrument is to provide the Darden College of Education and Professional Studies, The College of Arts and Letters, and the College of Sciences faculty with specific, relevant information regarding a teacher candidate’s progress. It is designed to assess beginning teacher performance on 4 different domains: Planning and Preparation, The Classroom Environment, Instruction, and Professional Responsibilities. The scale is based on CAEP Standards, INTASC standards, and Virginia Department of Education Guidelines for the Evaluation of Teachers.

Each area is comprised of specific elements that measure the teacher candidate’s performance. The elements are measured with a four (4) point rubric with leveled criteria. For each element please rate the behavior the teacher candidate typically displays. The selection “Did Not Observe” is available for the midterm evaluation. For the final evaluation, teacher candidates should not receive any “Did Not Observe.” Please elaborate further in the comment section with additional feedback that will help the teacher candidate continue to progress.

</thead>
<tbody>
<tr>
<td>1a: Demonstrating Knowledge of Content and Pedagogy</td>
<td>The teacher displays extensive knowledge of the important concepts in the discipline and how these relate both to one another and to other disciplines. The teacher demonstrates understanding of prerequisite relationships among topics and concepts and understands the link to necessary cognitive structures that ensure student understanding. The teacher’s plans and practice reflect familiarity with a wide range of effective pedagogical approaches in the discipline and the ability to anticipate student misconceptions.</td>
<td>The teacher displays solid knowledge of the important concepts in the discipline and how these relate to one another. The teacher demonstrates accurate understanding of prerequisite relationships among topics. The teacher’s plans and practice reflect familiarity with a wide range of effective pedagogical approaches in the subject.</td>
<td>The teacher displays minimal understanding of how students learn—and little knowledge of their varied approaches to learning, knowledge and skills, special needs, and interests and Teacher candidate did not have the opportunity to demonstrate skills.</td>
<td>In planning and practice, the teacher makes content errors or does not correct errors made by students. The teacher displays little understanding of prerequisite knowledge important to student learning of the content. The teacher displays little or no understanding of the range of pedagogical approaches suitable to student learning of the content.</td>
<td>Teacher candidate did not have the opportunity to demonstrate skills.</td>
</tr>
<tr>
<td>1b: Demonstrating Knowledge of Students</td>
<td>The teacher understands the active nature of student learning and acquires information about levels of development for individual students. The teacher also systematically acquires knowledge from several sources about individual students’ varied approaches to learning.</td>
<td>The teacher understands the active nature of student learning and attains information about levels of development for groups of students. The teacher also purposefully acquires knowledge and skills, special needs, and interests and Teacher candidate did not have the opportunity to demonstrate skills.</td>
<td>The teacher displays minimal understanding of how students learn—and little knowledge of their varied approaches to learning, knowledge and skills, special needs, and interests and Teacher candidate did not have the opportunity to demonstrate skills.</td>
<td>The teacher displays insufficient knowledge of prerequisite knowledge important to student learning of the content. The teacher displays little understanding of the range of pedagogical approaches suitable to student learning of the content.</td>
<td>Teacher candidate did not have the opportunity to demonstrate skills.</td>
</tr>
<tr>
<td>1c: Setting Instructional Outcomes</td>
<td>All outcomes represent high-level learning in the discipline. They are clear, are written in the form of student learning, and permit viable methods of assessment. Outcomes reflect several different types of learning and, where appropriate, represent both coordination and integration. Outcomes are differentiated, in whatever way is needed, for individual students.</td>
<td>Most outcomes represent rigorous and important learning in the discipline and are clear, are written in the form of student learning, and suggest viable methods of assessment. Outcomes reflect several different types of learning and opportunities for coordination, and they are differentiated, in whatever way is needed, for different groups of students.</td>
<td>Outcomes represent moderately high expectations and rigor. Some reflect important learning in the discipline and consist of a combination of outcomes and activities. Outcomes reflect several types of learning, but teacher has made no effort at coordination or integration. Outcomes, based on global assessments of student learning, are suitable for most of the students in the class.</td>
<td>The outcomes represent low expectations for students and lack of rigor, and not all of these outcomes reflect important learning in the discipline. They are stated as student activities, rather than as outcomes for learning. Outcomes reflect only one type of learning and only one discipline or strand and are suitable for only some students.</td>
<td>Teacher candidate did not have the opportunity to demonstrate skills.</td>
</tr>
<tr>
<td>1d: Demonstrating Knowledge of Resources</td>
<td>The teacher’s knowledge of resources for classroom use and for extending one’s professional skill is extensive, including those available through the school or district, in the community, through professional organizations and</td>
<td>The teacher displays awareness of resources beyond those provided by the school or district, including those on the Internet, for classroom use and for extending</td>
<td>The teacher displays some awareness of resources beyond those provided by the school or district for classroom use and for extending one’s professional skill but does not</td>
<td>The teacher is unaware of resources to assist student learning beyond materials provided by the school or district, nor is the teacher aware of resources for expanding one’s</td>
<td>Teacher candidate did not have the opportunity to demonstrate skills.</td>
</tr>
<tr>
<td>1e: Designing Coherent Instruction</td>
<td>The sequence of learning activities follows a coherent sequence, is aligned to instructional goals, and is designed to engage students in high-level cognitive activity. These are appropriately differentiated for individual learners. Instructional groups are varied appropriately, with some opportunity for student choice.</td>
<td>Most of the learning activities are aligned with the instructional outcomes and follow an organized progression suitable to groups of students. The learning activities have reasonable time allocations; they represent significant cognitive challenge, with some differentiation for different groups of students and varied use of instructional groups.</td>
<td>Some of the learning activities and materials are aligned with the instructional outcomes and represent moderate cognitive challenge, but with no differentiation for different students. Instructional groups partially support the activities, with some variety. The lesson or unit has a recognizable structure; but the progression of activities is uneven, with only some reasonable time allocations.</td>
<td>Learning activities are poorly aligned with the instructional outcomes, do not follow an organized progression, are not designed to engage students in active intellectual activity, and have unrealistic time allocations. Instructional groups are not suitable to the activities and offer no variety.</td>
<td>Teacher candidate did not have the opportunity to demonstrate skills.</td>
</tr>
</tbody>
</table>

<p>| 1f: Designing Student Assessments | All the instructional outcomes may be assessed by the proposed assessment plan, with clear criteria for assessing student work. The plan contains evidence of student contribution to its development. Assessment methodologies have been adapted for individual students as the need has arisen. The approach to using | All the instructional outcomes may be assessed by the proposed assessment plan; assessment methodologies may have been adapted for groups of students. Assessment criteria and standards are | Assessment procedures are partially congruent with instructional outcomes. Assessment criteria and standards have been developed, but they are not clear. The teacher’s approach to using formative assessment is rudimentary, including only | Assessment procedures are not congruent with instructional outcomes and lack criteria by which student performance will be assessed. The teacher has no plan to incorporate formative assessment in the lesson or unit. | Teacher candidate did not have the opportunity to demonstrate skills. |</p>
<table>
<thead>
<tr>
<th>2. The Classroom Environment</th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>2a: Creating an Environment of Respect and Rapport</td>
<td>Classroom interactions between teacher and students and among students are highly respectful, reflecting genuine warmth, caring, and sensitivity to students as individuals. Students exhibit respect for the teacher and contribute to high levels of civility among all members of the class. The net result is an environment where all students feel valued and are comfortable taking intellectual risks.</td>
<td>Teacher-student interactions are friendly and demonstrate general caring and respect. Such interactions are appropriate to the ages, cultures, and developmental levels of the students. Interactions among students are generally polite and respectful, and students exhibit respect for the teacher. The teacher responds successfully to disrespectful behavior among students. The net result of the interactions is polite, respectful, and business-like, though students may be somewhat cautious about taking intellectual risks.</td>
<td>Patterns of classroom interactions, both between teacher and students and among students, are generally appropriate but may reflect occasional inconsistencies, favoritism, and disregard for students’ ages, cultures, and developmental levels. Students rarely demonstrate disrespect for one another. The teacher attempts to respond to disrespectful behavior, with uneven results. The net result of the interactions is neutral, conveying neither warmth nor conflict.</td>
</tr>
<tr>
<td>2b: Establishing a Culture for</td>
<td>The classroom culture is a cognitively busy environment.</td>
<td>The classroom culture is a place where students are encouraged to explore and develop their intellectual potential.</td>
<td>The classroom culture is supportive, fostering a sense of community and shared responsibility.</td>
</tr>
<tr>
<td>Learning</td>
<td>where learning is valued by all; high expectations for both learning and hard work are the norm for most students. Students understand their role as learners and consistently expend effort to learn. Classroom interactions support learning, hard work, and the precise use of language.</td>
<td>characterized by little commitment to learning by the teacher or students. The teacher appears to be only “going through the motions,” and students indicate that they are interested in the completion of a task rather than the quality of the work. The teacher conveys that student success is the result of natural ability rather than hard work, and refers only in passing to the precise use of language. High expectations for learning are reserved for those students thought to have a natural aptitude for the subject.</td>
<td>characterized by a lack of teacher or student commitment to learning, and/or little or no investment of student energy in the task at hand. Hard work and the precise use of language are not expected or valued. Medium to low expectations for student achievement are the norm, with high expectations for learning reserved for only one or two students.</td>
</tr>
</tbody>
</table>

| 2c: Managing Classroom Procedures | Instructional time is maximized due to efficient and seamless classroom routines and procedures. Students take initiative in the management of instructional groups and transitions, and/or the handling of materials and supplies. Routines are well understood and may be initiated by students. Volunteers and paraprofessionals make an independent contribution to the class. | There is little loss of instructional time due to effective classroom routines and procedures. The teacher’s management of instructional groups and transitions, or handling of materials and supplies, or both, are consistently successful. With minimal guidance and prompting, students follow established routines | Some instructional time is lost due to partially effective classroom routines and procedures. The teacher’s management of instructional groups and transitions, or handling of materials and supplies, or both, are inconsistent, leading to some disruption | Much instructional time is lost due to inefficient classroom routines and procedures. There is little or no evidence of the teacher’s managing instructional groups and transitions and/or handling of materials and supplies effectively. There is little evidence that students | Teacher candidate did not have the opportunity to demonstrate skills. |
### 2d: Managing Student Behavior

<table>
<thead>
<tr>
<th></th>
<th>Classroom routines and volunteers and paraprofessionals contribute to the class.</th>
<th>Of learning. With regular guidance and prompting, students follow established routines and volunteers and paraprofessionals perform their duties.</th>
<th>Know or follow established routines, or that volunteers or paraprofessionals have clearly defined tasks.</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>2d: Managing Student Behavior</strong></td>
<td>Student behavior is entirely appropriate. Students take an active role in monitoring their own behavior and/or that of other students against standards of conduct. Teacher monitoring of student behavior is subtle and preventive. The teacher’s response to student misbehavior is sensitive to individual student needs and respects students’ dignity.</td>
<td>Student behavior is generally appropriate. The teacher monitors student behavior against established standards of conduct. Teacher response to student misbehavior is consistent, proportionate, and respectful to students and is effective.</td>
<td>Standards of conduct appear to have been established, but their implementation is inconsistent. The teacher tries, with uneven results, to monitor student behavior and respond to student misbehavior.</td>
</tr>
</tbody>
</table>
|  | The teacher candidate did not have the opportunity to demonstrate skills. | There appear to be no established standards of conduct, or students challenge them. There is little or no teacher monitoring of student behavior, and response to students’ misbehavior is repressive or disrespectful of student dignity. | **2e: Organizing Physical Space**

|  | The classroom environment is safe, and learning is accessible to all students, including those with special needs. The teacher makes effective use of physical resources, including computer technology. The teacher ensures that the physical arrangement is appropriate to the learning activities. Students contribute to the use or adaptation of the physical environment to advance learning. | The classroom is safe, and essential learning is accessible to most students. The teacher makes modest use of physical resources, including computer technology. The teacher attempts to adjust the classroom furniture for a lesson or, if necessary, to adjust the lesson to the furniture, but with limited effectiveness. | The classroom environment is unsafe, or learning is not accessible to many. There is poor alignment between the arrangement of furniture and resources, including computer technology, and the lesson activities. Teacher candidate did not have the opportunity to demonstrate skills. |

**Comments:**
### 3. Instruction

<table>
<thead>
<tr>
<th>3a: Communicating with Students</th>
<th>3b: Using Questioning</th>
</tr>
</thead>
<tbody>
<tr>
<td>The teacher links the instructional purpose of the lesson to the larger curriculum; the directions and procedures are clear and anticipate possible student misunderstanding. The teacher’s explanation of content is thorough and clear, developing conceptual understanding through clear scaffolding and connecting with students’ interests. Students contribute to extending the content by explaining concepts to their classmates and suggesting strategies that might be used. The teacher’s spoken and written language is expressive, and the teacher finds opportunities to extend students’ vocabularies, both within the discipline and for more general use. Students contribute to the correct use of academic vocabulary.</td>
<td>The teacher uses a variety of questioning techniques to engage students, and the questions are designed to elicit higher-order thinking skills. While the teacher’s questions lead to meaningful discussions, the teacher’s questions are of limited complexity and do not fully engage students in deep analysis or discussion.</td>
</tr>
<tr>
<td>The instructional purpose of the lesson is clearly communicated to students, including where it is situated within broader learning; directions and procedures are explained clearly and may be modeled. The teacher’s explanation of content is scaffolded, clear, and accurate and connects with students’ knowledge and experience. During the explanation of content, the teacher focuses, as appropriate, on strategies students can use when working independently and invites student intellectual engagement. The teacher’s spoken and written language is clear and correct and is suitable to students’ ages and interests. The teacher’s use of academic vocabulary is precise and serves to extend student understanding.</td>
<td>The teacher’s questions lead to less than meaningful discussions, as the questions are of limited complexity and do not fully engage students in deep analysis or discussion.</td>
</tr>
<tr>
<td>The teacher’s attempt to explain the instructional purpose has only limited success, and/or directions and procedures must be clarified after initial student confusion. The teacher’s explanation of the content may contain minor errors; some portions are clear, others difficult to follow. The teacher’s explanation does not invite students to engage intellectually or to understand strategies they might use. The teacher’s spoken or written language contains errors of grammar or syntax. The teacher’s academic vocabulary is inappropriate, vague, or used incorrectly, leaving students confused.</td>
<td>The teacher’s questions are of limited complexity and do not fully engage students in deep analysis or discussion.</td>
</tr>
</tbody>
</table>

Teacher candidate did not have the opportunity to demonstrate skills.
### 3c: Engaging Students in Learning

| Variety or series of questions or prompts to challenge students cognitively, advance high-level thinking and discourse, and promote metacognition. Students formulate many questions, initiate topics, challenge one another’s thinking, and make unsolicited contributions. Students themselves ensure that all voices are heard in the discussion. | teacher may use some low-level questions, he/she poses questions designed to promote student thinking and understanding. The teacher creates a genuine discussion among students, providing adequate time for students to respond and stepping aside when doing so is appropriate. The teacher challenges students to justify their thinking and successfully engages most students in the discussion, employing a range of strategies to ensure that most students are heard. | students through a single path of inquiry, with answers seemingly determined in advance. Alternatively, the teacher attempts to ask some questions designed to engage students in thinking, but only a few students are involved. The teacher attempts to engage all students in the discussion, to encourage them to respond to one another, and to explain their thinking, with uneven results. | low cognitive challenge, with single correct responses, and are asked in rapid succession. Interaction between the teacher and students is predominantly recitation style, with the teacher mediating all questions and answers; the teacher accepts all contributions without asking students to explain their reasoning. Only a few students participate in the discussion. | not have the opportunity to demonstrate skills. |

Virtually all students are intellectually engaged in challenging content through well-designed learning tasks and activities that require complex thinking by students. The teacher provides suitable scaffolding and challenges students to explain their thinking. There is evidence of some student initiation of inquiry and student

The learning tasks and activities are fully aligned with the instructional outcomes and are designed to challenge student thinking, inviting students to make their thinking visible. This technique results in active

The learning tasks and activities are partially aligned with the instructional outcomes but require only minimal thinking by students and little opportunity for them to explain their thinking, allowing most students to be passive or merely

The learning tasks/activities, materials and resources are poorly aligned with the instructional outcomes, or require only rote responses, with only one approach possible. The groupings of students are unsuitable to the activities. The

Teacher candidate did not have the opportunity to demonstrate skills.
| 3d: Using Assessment in Instruction | Assessment is fully integrated into instruction, through extensive use of formative assessment. Students appear to be aware of, and there is some evidence that they have contributed to, the assessment criteria. Questions and assessments are used regularly to diagnose evidence of learning by individual students. A variety of forms of feedback, from both teacher and peers, is accurate and specific and advances learning. Students self-assess and monitor their own progress. The teacher successfully differentiates instruction to address individual students’ misunderstandings. | Students appear to be aware of the assessment criteria, and the teacher monitors student learning for groups of students. Questions and assessments are regularly used to diagnose evidence of learning. Teacher feedback to groups of students is accurate and specific; some students engage in self-assessment. | Students appear to be only partially aware of the assessment criteria, and the teacher monitors student learning for the class as a whole. Questions and assessments are rarely used to diagnose evidence of learning. Feedback to students is general, and few students assess their own work. | Students do not appear to be aware of the assessment criteria, and there is little or no monitoring of student learning; feedback is absent or of poor quality. Students do not engage in self- or peer assessment. | Teacher candidate did not have the opportunity to demonstrate skills. |
| 3e: Demonstrating Flexibility and | The teacher seize an opportunity to enhance | The teacher successfully accommodates | The teacher accepts responsibility for | The teacher ignores | Teacher candidate did |
| Responsiveness | learning, building on a spontaneous event or students’ interests, or successfully adjusts and differentiates instruction to address individual student misunderstandings. Using an extensive repertoire of instructional strategies and soliciting additional resources from the school or community, the teacher persists in seeking effective approaches for students who need help. | students’ questions and interests. Drawing on a broad repertoire of strategies, the teacher persists in seeking approaches for students who have difficulty learning. If impromptu measures are needed, the teacher makes a minor adjustment to the lesson and does so smoothly. | the success of all students but has only a limited repertoire of strategies to use. Adjustment of the lesson in response to assessment is minimal or ineffective. | students’ questions; when students have difficulty learning, the teacher blames them or their home environment for their lack of success. The teacher makes no attempt to adjust the lesson even when students don’t understand the content. | not have the opportunity to demonstrate skills. |

4. Professional Responsibilities

4a: Reflecting on Teaching

- The teacher makes a thoughtful and accurate assessment of a lesson’s effectiveness and the extent to which it achieved its instructional outcomes, citing many specific examples from the lesson and weighing the relative strengths of each. Drawing on an extensive repertoire of skills, the teacher offers specific alternative actions, complete with the probable success of different courses of action.

- The teacher makes an accurate assessment of a lesson’s effectiveness and the extent to which it achieved its instructional outcomes and can cite general references to support the judgment. The teacher makes a few specific suggestions of what could be tried another time the lesson is taught.

- The teacher has a generally accurate impression of a lesson’s effectiveness and the extent to which instructional outcomes were met. The teacher makes general suggestions about how a lesson could be improved.

- The teacher does not know whether a lesson was effective or achieved its instructional outcomes, or the teacher profoundly misjudges the success of a lesson. The teacher has no suggestions for how a lesson could be improved.

- Teacher candidate did not have the opportunity to demonstrate skills.

4b: Maintaining Accurate Records

- The teacher’s system for maintaining information on student completion of assignments, student progress in learning.

- The teacher’s system for maintaining information on student progress.

- The teacher’s system for maintaining information on student progress.

- The teacher’s system for maintaining information on student progress.

- Teacher candidate did not have the opportunity to demonstrate skills.
<table>
<thead>
<tr>
<th>and noninstructional records is fully effective. Students contribute information and participate in maintaining the records.</th>
<th>completion of assignments, student progress in learning, and noninstructional records is fully effective.</th>
<th>student completion of assignments and student progress in learning is rudimentary and only partially effective. The teacher’s records for noninstructional activities are adequate but inefficient and, unless given frequent oversight by the teacher, prone to errors.</th>
<th>completion of assignments and student progress in learning is nonexistent or in disarray. The teacher’s records for noninstructional activities are in disarray, the result being errors and confusion.</th>
<th>demonstrate skills.</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>4e: Communicating with Families</strong></td>
<td>The teacher communicates frequently with families in a culturally sensitive manner, with students contributing to the communication. The teacher responds to family concerns with professional and cultural sensitivity. The teacher’s efforts to engage families in the instructional program are frequent and successful.</td>
<td>The teacher provides frequent and appropriate information to families about the instructional program and conveys information about individual student progress in a culturally sensitive manner. The teacher makes some attempts to engage families in the instructional program.</td>
<td>The teacher provides little information about the instructional program to families; the teacher’s communication about students’ progress is minimal. The teacher does not respond, or responds insensitively, to parental concerns.</td>
<td>Teacher candidate did not have the opportunity to demonstrate skills.</td>
</tr>
<tr>
<td><strong>4d: Participating in the Professional Community</strong></td>
<td>The teacher’s relationships with colleagues are characterized by mutual support and cooperation; the teacher actively participates in a culture of professional inquiry. The teacher takes a leadership role.</td>
<td>The teacher maintains cordial relationships with colleagues to fulfill duties that the school or district requires. The teacher participates in the school’s culture of professional inquiry when opportunity arises.</td>
<td>The teacher’s relationships with colleagues are negative or self-serving. The teacher avoids participation in a professional culture of inquiry, resisting opportunities to become involved.</td>
<td>Teacher candidate did not have the opportunity to demonstrate skills.</td>

A Guide for the Assessment and Evaluation of Teacher Candidate Interns- Endorsement

SPECIFIC QUESTIONS

While candidates in the approved teacher education programs must exhibit professional dispositions and effective teaching skills, they must also demonstrate dispositions and skills that are specific to their teaching areas. There are unique knowledge, skills, and dispositions a candidate in the area of Elementary Education will need to demonstrate that will be different from that of a candidate in the area of health and physical education or even biology. For that reason, the faculty, university supervisors, clinical faculty, and teachers, in the field have developed a set of “Endorsement Specific Questions” to accompany the candidate evaluation. These additional questions provide in-depth evaluation form each national organization to determine if the candidate has mastered the unique skills in their specialty area based on their standards.
**EVALUATION OF TEACHER CANDIDATE BY SCHOOL ADMINISTRATOR**

Teacher Candidate ___________________________ UIN ___________________________

Year ___________________ Semester _____________ Student Status ______________

Name of School Administrator ________________________________

School Division _________________________ School ______________________

Judging the teacher candidate as a developing professional, please rate him/her on each item using the following scale:

3 = Meets Expectations - Teacher candidate typically and routinely displays behavior requested with quality
2 = Needs Improvement – Teacher candidate requires assistance displaying behavior or is inconsistent with demonstrating behavior.
1 = Unacceptable – Teacher candidate does not perform expected behavior
0 = Not Observed – Teacher candidate has not had the opportunity to demonstrate behavior during observation period.

**FOR SUPERVISORS**

Form Distribution:

*University Supervisor Observation and Conference* - completed by the University Supervisor

1. for pay purposes
2. one copy is submitted at the end to be placed in the candidate’s file

*Weekly Feedback Guide* – completed by the clinical faculty and reviewed by the university supervisor. The candidates keep these for their records.

*Teacher Candidate Professional Growth Plan* – completed by the university supervisor in collaboration with the clinical faculty. This plan is developed when the teacher candidate is having difficulties in succeeding in specific areas. Documentation of how to help the teacher candidate succeed is necessary. A timeline must be included. A copy is provided to the Associate Director of Clinical Experiences at Old Dominion University.
**Assessment of Instructional Environment** – this evaluation is completed by the teacher candidate. This is the candidate’s evaluation of the instructional environment and how to effectively plan for each student in the provided environment. This evaluation is reviewed with the University Supervisor.

**Professional Attributes and Instructional Development Scales** – this is completed at the mid-term and final. If a candidate is in two seven-week placements, a mid-term and final is completed in each setting. The clinical faculty completes the evaluation. The supervisor reviews the evaluation prior to administering the evaluation to the candidate. They should complete the evaluations with feedback from the university supervisor. The teacher candidate, university supervisor, and clinical faculty should sign the cover sheet or electronically. All documents should be given to the university supervisor to return to the university. A copy should be given to the teacher candidate.

**Evaluation of the Teacher Candidate by School Administrator** – this is completed by the Assistant Principal or Principal at each placement. These are submitted at the end of each semester with the grades. They should be completed and returned to the Office of Clinical Experience Office with grades.

**Weekly Journals** – reviewed with the candidates during visits and seminars.

**Impact on student Learning Data Form** – this is completed by the University Supervisor after the teacher candidate has completed and submitted to the University Supervisor his/her Impact of student Learning Project. The project must be completed in the LiveText and the supervisors will grade in LiveText. To award a final PASSING grade, the teacher candidate must have completed this assignment prior to the University Supervisor completing this form. In programs such as art and music or for candidates out of the state, a link matching LiveText will be forwarded to supervisors so they may grade the Impact on Student learning.

**Teacher Candidate Portfolio Evaluation Form** – this is completed by the University Supervisor at the end of the semester. Must be completed in the LiveText and the supervisors will grade in LiveText. To award a final PASSING grade, the teacher candidate must have completed this assignment prior to the University Supervisor completing this form. In programs such as art and music or for candidates out of the state, a link matching LiveText will be forwarded to supervisors so they may grade the Impact on Student learning.

**Time Record** – this is a record of how the candidates spend their time at school.

**Teacher Candidate Evaluation of Clinical Faculty** – the candidate has the opportunity to evaluate the clinical faculty with anonymity. Candidates complete this form on the LiveText link forwarded by the Associate Director of Clinical Experiences.

**Teacher Candidate Evaluation of University Supervisor** – the candidate has the opportunity to evaluate the University Supervisor with anonymity. Candidates complete this form on the LiveText link forwarded by the Associate Director of Clinical Experiences.
Clinical Faculty Evaluation of University Supervisor – the clinical faculty has the opportunity to evaluate the university form on the LiveText link forwarded by the Associate Director of Clinical Experiences.

University Supervisor Evaluation of Clinical Faculty – the University Supervisor has the opportunity to evaluate the clinical faculty on the LiveText link forwarded by the Associate Director of Clinical Experiences.

Grade Sheet – please check off each item, then submit the grade sheet to the Office of Clinical Experience. Please enter the final grade as a P (pass) or F (fail).

</table>

81
### Teaching Plans
1. Plan has objectives for current lesson
2. Plan has objectives related to appropriate SOL
3. Plan has group/individualized for diverse learners
4. Plan has procedures for assessing student progress
5. Plans are given to clinical faculty three days in advance

### Classroom Management
6. Provides clear academic and behavioral expectations at beginning of lesson
7. Reinforces appropriate student behavior
8. Enforces classroom expectations/rules consistently, firmly, and fairly
9. Positions self to see majority of students
10. Scans class regularly to proactively address student behaviors
11. Communicates enthusiasm for teaching

### Classroom Instruction
12. Provides objectives and establishes student’s prior knowledge
13. Reviews homework and ties to instructional objectives
14. Begins lesson on schedule
15. Presents concrete and/or visual models when appropriate
16. Uses effective question techniques
17. Uses appropriate wait time for students after asking questions
18. Uses effective closure or summarization techniques
19. Uses instructional time effectively
20. Uses instructional pacing that is appropriate for student performance levels
21. Maximizes instructional time
22. Provides students the opportunity to demonstrate understanding

### Assessment and Feedback
23. Provides feedback in timely manner
24. Assists students in evaluating their own performance
25. Uses assessment data to routinely differentiate instruction

---

**WEEKLY FEEDBACK GUIDE**

If there are elements of professional development or Instructional Development competencies that need more attention, please provide specific examples of how the teacher candidate may strengthen this area.

In the space below, the teacher candidate will briefly outline plans to strengthen or improve areas noted by the clinical faculty.

Have you received “mentor” training? (check all that apply)
Yes, from my school division/district (1) No (3)  
Yes, from somewhere else (2) (please identify)  

Have you attended an Old Dominion University training session for clinical faculty hosted by your school division/district?
If yes, when  
If no, what would make you more willing to attend one of the training sessions?  

Please read and sign that you understand the following statement:
I understand that this information may be reviewed by the university with the human resources department in my school division/ district

If you teach in an alternative education program or residential hospital setting, please list the name and location of the education program:

Name of school Division/District and State, if outside Virginia:
WEEKLY JOURNAL
(To be submitted each week to the Old Dominion University Supervisor)

Use this journal to describe your progress in becoming a Professional Educator in relation to the goals of The Unit’s Model in the Handbook.

Name _______________________________ Date __________________

1. What was the purpose of your lesson this week?
2. How did you engage your learners with your materials?
3. Were you effective in meeting the purpose of the lessons – how are you measuring this?
4. What are the strengths of this lesson? (Identify at least two areas)
5. What areas will you seek to improve in future lessons?
6. Did you make any changes in your plans after teaching the lesson? Why or why not?
7. What do you regard as your most important personal learning experience during this week?
8. Did you have a conference this week with your clinical faculty? How many times? If not, why?
9. Tell me about something that happened this week that you are proud of.
10. Are you having problems that you feel require attention and assistance from me?
11. When would be a good time for me to stop by your school next week?

COMMENTS:

A final journal, summarizing your weekly journals should be included in your professional portfolio.
**Time Record**

(After signature is obtained from Clinical Faculty each week, Scan and attach to Weekly Journal.)

Name of Teacher Candidate:

**TOTAL**

*Non-teaching activities include observation, conferences, bus duty, hall duty, lunchroom duty, study hall, etc.

**Non-class activities include clubs, assistance in athletics, and other extracurricular activities in which the teacher candidate has a leadership role with pupils.
Time Record

The time record should carefully account for time spent in internship. Responsibility for the accuracy of this record lies with the individual teacher candidate. The time record, along with evaluations from clinical faculty, school administrators and university supervisor, becomes a permanent part of internship files at the University.

Instructions for completing the Time Record:

1. Hours should be entered by the week, not daily. (A daily record can be kept informally and then entered on the time record at the end of each week.) Each candidate is responsible for completing the required number of weeks in their approved teacher education program.

2. Hours are to be verified by the signature of the clinical faculty.

3. Hours are to be totaled down the right hand “Total” column and across the bottom.

4. Column 1, “Non-teaching Activities”, should include hours spent in observation, conferences, monitoring duties (i.e., hall duty, bus duty, study hall), and other activities not involving planned interaction with pupils.

5. Column 2, 3, and 4, “Teaching”, represent various kinds of teaching activities. These include assisting activities with learners, individual instruction, small groups, responsibility for teaching the entire class, and non-classroom teaching activities in which the teacher candidate interacts with pupils in a planned leadership role (i.e., clubs, athletics, other extracurricular activities.)

6. Column 5, “Homework and Planning”, should only contain those hours devoted to planning lessons, securing materials, grading tests, etc., either during planning periods or outside the school day.

</table>

Please indicate to what degree your university supervisor performed the listed activities by circling the appropriate number using the following scale:

4 = Exceeds Expectations  3 = Meets Expectations  2 = Needs Improvement  1 = Unacceptable  0 = Not Observed

I. SUPPORT/COMMUNICATION

- Advised you of the requirements at the beginning of the semester
- Was accessible by phone
- Agreed to visit you when assistance was needed
- Derived a workable solution if difficulties occurred
- Provided relevant information through seminars, workshops, counseling, etc.
- Conducted seminars as scheduled
- Reviewed weekly journal and provided feedback when needed
- Discussed development and implementation of lesson plans
- Reviewed your portfolio and provided feedback on a regular basis

II. SUPERVISION/ASSESSMENT

- Coordinated visit dates/times with clinical faculty
- Spent ample time (50-60 minutes or a full bell) for observation/assessment
- Analyzed and critiqued teaching technique soon after observation
- Helped you to identify specific areas of strength and weakness
- Previewed and discussed the purposes of each evaluation form
- Reviewed with you the results of each evaluation
- Conducted a three-way conference with teacher candidate intern and clinical faculty
- Conducted all conferences in a positive and constructive manner.

<tbody>
<tr>
<td><strong>Professionalism</strong></td>
<td>Candidate demonstrates positive work habits and interpersonal skills including: a positive attitude, dependability, honesty, and respect for others.</td>
<td>Candidate demonstrates positive work habits and interpersonal skills including: a positive attitude, dependability, honesty, and respect for others.</td>
<td>Candidate demonstrates positive work habits and interpersonal skills including: a positive attitude, dependability, honesty, and respect for others.</td>
<td>Candidate demonstrates positive work habits and interpersonal skills including: a positive attitude, dependability, honesty, and respect for others.</td>
</tr>
<tr>
<td>Professionalism</td>
<td>Adheres to schedules, is prepared (work is done with care and all responsibilities are met), can be trusted to take on additional responsibilities. Should an extenuating circumstance arise, seeks opportunities to display positivity and respect for all parties involved.</td>
<td>Adheres to schedules, is prepared (work is done with care and all responsibilities are met), can be trusted to meet responsibilities. Should an extenuating circumstance arise, maintains composure and positive attitude to complete the task. Maintains respect for all parties involved.</td>
<td>Adheres to schedules, is prepared, can be trusted to meet responsibilities in usual circumstances. In the event of extenuating circumstances, may struggle or resort to negative reactions or lack of respect.</td>
<td>Does not consistently adhere to schedules, arrive prepared, or complete assignments, duties, or tasks honestly with a positive attitude.</td>
</tr>
<tr>
<td>Candidate uses sound judgement and thoughtful decision making with written and oral communication, while considering the intended audience and consequences.</td>
<td>Demonstrates sound judgment and is thoughtful in communications while considering both the intended audience and associated consequences. Shows forethought in tough situations to proactively craft a plan of action.</td>
<td>Demonstrates sound judgment and is thoughtful in communications while considering both the intended audience and associated consequences in alignment with school, system, and university directives.</td>
<td>Begins to consider intended audience before responding, however still struggles with decision making and the associated consequences of their communication.</td>
<td>Does not take into account intended audience or consequences associated with communicating with others and does not demonstrate sound decision making.</td>
</tr>
<tr>
<td>Candidate exhibits organization skills.</td>
<td>Successfully plans progress toward and meets deadlines. Keeps one’s own materials organized for efficiency and ease of use. Keeps material’s organized for ease of access and appropriate feedback. Teaches others developmentally appropriate organizational skills to foster independence and for holistic efficiency in the learning environment.</td>
<td>Successfully plans progress toward and meets deadlines. Keeps one’s own materials organized for efficiency and ease of use. Keeps materials organized for ease of access and appropriate feedback.</td>
<td>Does not consistently meet deadlines; however, while on task, uses time well and begins to keep one’s own work organized, but records and materials are difficult to access/locate.</td>
<td>May struggle to meet deadlines. Time is not used well, materials are difficult to access/locate.</td>
</tr>
<tr>
<td>Candidate exhibits emotional maturity and expresses concerns</td>
<td>Maintains emotional composure even in unforeseen circumstances. Is responsive to others’</td>
<td>Maintains emotional composure even in stressful circumstances. Is</td>
<td>Loses control of emotions in particularly stressful circumstances. Accepts personal responsibility for</td>
<td>Demonstrates a pattern of losing control of emotions, showing outbursts. May not</td>
</tr>

**Respect for Diversity**

<p>| Candidate promotes social justice. | Explicitly teaches students about society’s injustices and the dynamics of privilege. Advocates for, gives significant voice to, and collaborates with parents and the community in educational decisions and processes. | Explicitly asserts that students need to learn about society’s injustices and the dynamics of privilege. Seeks opportunities to strengthen understanding and practice as integral to everyday practice. | Refers to or implies about society’s injustices and dynamics of privilege. Participates in opportunities to broaden understanding and practice as integral to everyday practice. | Does not acknowledge that society is unjust and privilege exists. |
| Candidate reflects upon and addresses biases by promoting achievement of students at all levels. | Persists in positive expectations for all students through reinforcement of critical reflection of biases amongst self and colleagues. Advocates for all learners. | Regularly considers interactions, emotions, and perceptions in interactions with students and families to consider possible biases and address them to improve future interactions. Seeks additional sources of information (experiential and academic) to broaden frames of reference and deepen understanding for improved relationships with students and families. Shares | Considers interactions, emotions, and perceptions when working with students and families to consider possible biases and address them to improve future interactions. | Does not recognize that every human being holds unconscious biases. Conducts limited reflection or believes self to be free of bias. |</p>

PART FIVE

APPENDIX
APPENDIX 1.1

**Historical Development of the Conceptual Framework**

The Unit’s Conceptual Framework Committee has as its charge the oversight and management of the Conceptual Framework. This Committee reviews the Framework, considers modifications and updates, and approves any changes to the framework. The Committee consists of a representative group of both internal and external constituents. Additionally, the College meets with regional school divisions once each year to review the Unit’s Conceptual Framework as well as a variety of other documents, including student teaching documentation. This group also discusses observations, issues, and concerns related to the performance of the Unit’s candidates as well as the changing environment of education in the region. As a result, programmatic and process improvements are often identified that may positively affect the performance of teachers, other school professionals, and educational leader candidates.

The Unit’s Conceptual Framework remains a living document and a work in progress. The Unit developed the Conceptual Framework theme of *Educator as Professional* nearly two decades ago to reflect the Unit’s position on both content and pedagogy. Revisions to the Conceptual Framework were made in the late 1990s, 2001 and 2009. The Unit has a single Conceptual Framework for initial and advanced preparation programs, aligned to national, state, and institutional professional standards. As a result, a coherent statement of the mission of the unit has continued to evolve. Its most recent revision includes the creation of a new graphic that represents the philosophy of the unit, while the previous graphic depicted the processes of the unit. Modifications have been made to address changes in technology, methodology, and various Committee recommendations. The Conceptual Framework is circulated as a separate, stand-alone document and is available on the website of the Darden College of Education and Professional Studies for use by the Unit’s faculty, candidates and partners in the public schools.

**University and Unit Mission and Vision**

The Conceptual Framework for the Professional Education Unit

**Old Dominion University**

November 2009

*Educator as Professional*
The Conceptual Framework for the professional education unit at Old Dominion University is guided by the theme, *Educator as Professional*.

**Vision and Mission of the Institution and Unit**

**Vision of the Institution**

Old Dominion University will be recognized nationally and internationally as forward-focused metropolitan university with a collaborative and innovative approach to education and research that spurs economic growth, focuses on student success, engages civic and community partners, and uses its connections with the military and maritime industries and its exceptional strengths and leadership in related areas to provide practical solutions to complex, real world problems.

**Mission of the Institution**

*Old Dominion University, located in the City of Norfolk in the metropolitan Hampton Roads region of coastal Virginia, is a dynamic public research institution that serves its students and enriches the Commonwealth of Virginia, the nation, and the world through rigorous academic programs, strategic partnerships, and active civic engagement.*

The University’s Mission Support describes, in detail the principles and practices that underlie the university’s undergraduate and graduate teaching, research, and service missions: a sound general education program; critical thinking; diversity; academic freedom; serving the needs of the local, national, and international communities, including military members and their families; and collaborating with government, industry, and alumni. Finally, the Major Goals of the University are described in detail: Learners; Faculty; Academic Programs; Teaching; Research, Scholarship and Creativity; International Connections; Life-long Learning; Community Service; Campus Life; Alumni; and Quality. Both the core mission statement and the detailed support statements constitute the foundation of all aspects of the University’s 2014-2019 Strategic Plan. All documents related to the University’s mission can be found on the first few pages of the current University Graduate and Undergraduate Catalogs.

**Vision and Mission of the Unit**

Together, the Darden College of Education and Professional Studies, the College of Arts and Letters, and the College of Sciences comprise the Unit and strive to prepare the highest quality school professionals, at all levels, capable of positively impacting the education of tomorrow’s leaders, one student at a time.
The Unit’s mission is to prepare professional educators to fulfill the needs of the education community, now and in the future. The vision and mission of the Unit are derived from those of the Darden College of Education and Professional Studies.

The vision of the Darden College of Education and Professional Studies is to become recognized as one of the top 50 colleges of education in the country and to increase its rankings in national opinion surveys by focusing its resources to achieve:

- **Collaboration** among departmental, College, and University colleagues with professional colleagues throughout the world;
- Adherence to the highest standards of **professionalism** and prominence in our professions; and,
- A reputation for **innovation** in teaching, research, and service in the preparation of teachers and other professionals, leaders, and scholars as we meet the needs of Hampton Roads, the Commonwealth of Virginia, the nation, and the world.

The College’s mission is to provide excellence in teaching, scholarly activities, and service while meeting the needs of its community and maintaining national and international prominence. The mission is fulfilled through the Unit’s undergraduate and graduate programs in the fields of education, counseling and human services, exercise science, sports management, recreation, training, fashion, speech-language disorders, instructional and occupational technology, as well as its many continuing education activities.

**Unit Theme- Educator as Professional**

The Educator as Professional theme embraced by the Unit is an expression of what candidates can expect to obtain from their academic experience. It reflects the culmination of the Unit’s purpose, to prepare teachers, other school professionals (school counselors and speech professionals), and educational leaders who have knowledge of their teaching disciplines, the ability to provide state-of-the-art instruction to students of various cultural and socioeconomic backgrounds, and who demonstrate attitudes which promote commitment to teaching and learning, as well as lifelong professional growth and development.

**Philosophy, Purposes, and Goals of the Unit**

**Unit Philosophy**

The Monarch Creed applies to all members of the University community and is inherent to all academic programs within the Unit and beyond. It reads:
Make personal and academic integrity fundamental in all my endeavors.
Offer service to the University and the community.
Nurture a climate of care, concern, and civility to others.
Accept responsibility for all my actions.
Respect the dignity, rights, and property of all people.
Commit to the ongoing pursuit of intellectual and personal development.
Heighten my awareness of individual and cultural similarities and differences.

Additionally, the Darden College of Education and Professional Studies emphasizes collaboration, professionalism, ethical practice, and innovation. The value-added activities of its 100-strong faculty support these beliefs through their work in undergraduate and graduate degree programs, continuing education opportunities, research, and service to the community.

Unit Purpose

The Old Dominion University Professional Education Unit’s purpose is to prepare teachers, other school professionals, and educational leaders who have knowledge of their teaching disciplines, with the ability to provide state-of-the-art instruction to learners of various cultural and socioeconomic backgrounds, and who demonstrate attitudes which promote commitment to teaching and learning, as well as lifelong professional growth and development. The Unit routinely works to make improvements and modifications that strengthen its purpose and reflect the changing environment of the profession.

Unit Goals

The Unit’s goals are aligned with the goals of the University as stated in its Mission Support statement and Strategic Plan. Specifically, the unit embraces the following goals:

- Provide candidates rich content experiences in each of the colleges to develop the required knowledge to effectively contribute to their specialization.
- Provide diverse opportunities for candidates to explore, understand, and become skilled in pedagogy.
- Provide a learning environment where appropriate professional dispositions are taught, modeled, emphasized, and ethical practice is valued.
- Emphasize the importance of understanding and appreciating the various cultures and socioeconomic backgrounds of learners from both rural and urban settings.
- Provide candidates the opportunity to experience and implement technology infused instruction.
• Emphasize the importance of a culture of examination, assessment, and reflection for the purpose of improving student learning.
• Provide opportunities for candidates to become familiar with, and engage in, professional organizations to emphasize the importance of lifelong professional growth, development, and service.

**Candidate Proficiencies**

The Unit emphasizes five candidate proficiencies in both content and pedagogy at the initial licensure level and in advanced professional studies as it prepares *Professional Educators*. The proficiencies emphasized include professional dispositions, understanding diverse learners, developing learning environments, professional growth and development, and assessment.

**Professional Dispositions**

As defined by the National Council for the Accreditation of Colleges of Education (NCATE) dispositions are professional attitudes, values, and beliefs demonstrated through both verbal and non-verbal behaviors as educators interact with students, families, colleagues, and communities. These positive behaviors support student learning and development.

The Darden College of Education and Professional Studies has adopted the following as key dispositions and behaviors essential for each teacher candidates to demonstrate across his/her programs of study:

The Teacher Education Council adopted *Policies* and *Procedures for Assessing Teacher Candidate Dispositions at Old Dominion University*. Programs have identified the points in their program assessment systems when these unit-level disposition outcomes are assessed. A three-point assessment process has been developed and implemented to increase candidate awareness of the importance of developing these characteristics.

- Demonstrates positive work habits and interpersonal skills including: a positive attitude, dependability, honesty, and respect for others.
- Uses sound judgement and thoughtful decision making with written and oral communication, while considering the intended audience and consequences.
- Exhibits organization skills.
- Exhibits emotional maturity and expresses concerns properly and professionally.
- Maintains his/her position as a positive role model in the school.
- Promotes social justice.
• Reflects upon and addresses biases by promoting achievement of students at all levels.
• Exhibits social consciousness.
• Recognizes the importance of students’ unique prior knowledge, life experiences and interests as part of student learning.
• Values diverse cultures, identities, and perspectives, inclusive of learning exceptionalities, gender, sexual orientation, religion/worldview, race/ethnicity, SES, language, national origin, immigration status, age, family structure.
• Demonstrates commitment to helping all students learn.
• Advocate in the broader school community.
• Advocate in emerging trends and initiatives.
• Advocates for/with students and families.
• Flexible and resourceful in meeting student learning needs.
• Recognizes the importance of accepting responsibility for what occurs school-wide, especially responsibilities that contribute to student learning and a safe, orderly environment.
• Understands and involves a wide variety of resources in the school, family, culture, and community to facilitate student learning.
• Collaborates with other professionals to improve the overall learning of students.
• Sets and pursues short and long-term professional goals.
• Participates in professional growth activities within and outside of the school.
• Developing Digital Citizens
• Self-regulated learner and shows initiative.
• Practices active listening.
• Solicits and uses feedback for continuous improvement.
• Protects confidentiality (follows FERPA)

Diverse Learners

Candidates are prepared to establish student-centered and differentiated instruction for students with special needs and individual learner needs. Candidates learn to honor individual differences among learners by utilizing multiple approaches to thinking and learning. Developing
and implementing an integrated curriculum that focuses on the needs and interests of children are important candidate proficiencies.

The Unit prepares candidates to plan instructional activities appropriate to the needs of culturally, ethnically, economically, and linguistically diverse learners and those with exceptional learning needs. Candidates must be able to use their knowledge of learners’ diversity to affirm and support full participation of all learners, and they must be able to use a variety of approaches to instruction in diverse settings and with learners with diverse backgrounds, interests, and abilities.

**Learning Environment**

There are several areas of emphasis involving the learning environment. Candidates are provided opportunities throughout the curriculum to develop knowledge, skills, and abilities in each area of emphasis. Evidence of their work, in this and all standards of the Unit, is provided in student portfolios and is applied during field experiences.

Upon program completion, candidates will know, understand, and use the major concepts, principles, theories, and research related to the development of children and adolescents. They can effectively consider, accommodate, and integrate the cognitive, linguistic, physical, social, and emotional development characteristics of children and adolescents. In addition, candidates will plan and implement developmentally appropriate, responsive curriculum and instructional practices based on knowledge of individual learners, the community, and curriculum goals and content.

Standards-based instruction, the knowledge and understanding of major concepts and principles of a candidate’s teaching discipline(s) as defined by educational state and national standard, is a key component of preparing candidates to establish effective learning environments. Candidates are expected to relate plans and resources to professionally developed state and national standards.

Candidates must also be prepared to apply fundamental concepts of their content specialty. They must know, understand, and use the central concepts, structures of content, and tools of inquiry for students across the grades. In addition, candidates must know, understand, and use the connections among concepts, procedures, and applications from content areas to motivate students and build understandings.
Candidates are prepared to teach the basic concepts and skills of inquiry and communication as integral to all learning. The cultivation of students’ ability to recognize and solve problems, as well as the development of students’ lifelong habits of critical thinking and judgement are also emphasized as key objectives.

Not only are the candidates expected to be able to engage preK-12 learners effectively in studies of the nature of their discipline, they must also define the values, beliefs, and assumptions inherent to the creation of knowledge within their respective disciplines, and contrast that knowledge to other ways of knowing. They must also emphasize the interdisciplinary nature of knowledge while drawing upon the resources inherent in separate subjects. Candidates become skilled at making connections across disciplines and helping students learn the power of multiple perspectives to understand complex issues.

Authentic learning experiences providing connection to human values and endeavors as well as the personalities, needs, and interests of the students is another key element of the learning environment. Candidates learn to encourage the application of knowledge, skills, tools, and ideas to real world issues. They become capable of helping learners realize how knowledge, skills and ideas relate to their lives and to other real-world situations. Candidates are also expected to know and understand the relationship of various disciplines to other human values and endeavors.

Candidates must also develop an understanding of the principles of effective classroom management. Each candidate is prepared to use a range of strategies to promote positive relationships, cooperation, conflict resolution, and purposeful learning in the instructional environment. Creating learning communities, in which students assume responsibility for themselves and one another, participate in decision-making, work collaboratively and independently, and engage in purposeful learning activities are critical elements to success in this area.

Candidates are trained to understand and use appropriate and effective interpersonal and small group communication techniques to create and effective learning environment.

**Professional Growth and Development**

The Unit strives to prepare candidates who exhibit professional dispositions, ethical decision-making, attributes, and habits of mind. They are prepared to use current research, field experiences, and self-reflection to make effective decisions and to create instruction. Candidates
must understand the dynamics of the surrounding community, various school cultures, and school curricula. In addition, candidates learn the importance of accessing and effectively utilizing resources in the school and from the community in order to construct effective educational experiences for their students.

The importance of participation in professional education organizations, including those at the local, state, and national levels, is stressed. Candidates are encouraged to participate in organizations that unite members of their respective professions and provide opportunities for professional growth. In addition, candidates are made aware of the importance of personal interests, talents, and related skills when shaping instruction. Candidates realize that personal interests and talents can serve as a valuable resource in the classroom.

Candidates understand the importance of effective communication and collaboration with students, parents, and community members to support the learners’ growth. They are encouraged to establish community partnerships that support cooperative ventures and reflect a commitment to the profession. In addition, candidates understand the importance of establishing relationships with and becoming socially attuned to the needs of learners, parents, and community members. The ability to effectively communicate and collaborate with other education professionals, particularly colleagues and administrators, for the purpose of supporting learning and a positive instructional environment is emphasized as an area for the growth and development over time.

Assessment

Assessment of learning is threaded through the content and pedagogy of all programs leading to Educator as Professional. From initial licensure to advanced programs, a culture of examination is encouraged.

Candidates are prepared to apply various formal and informal methods of assessment and evaluation of learners to inform instruction and learning. Candidates learn to use assessment as an integral part of instruction. Candidates are expected to be able to align their instructional and assessment practices and to use formative and summative methods to determine their learners’ understanding and to monitor their own teaching effectiveness. Candidates are expected to have an understanding of and an ability to use a variety of formal and informal assessment techniques (e.g., observation, portfolios of student work, teacher-made tests, performance tasks, projects, learner self-assessments, peer assessment, and standardized tests).

Figure 1.0
As depicted in figure 1.0, the Unit encompasses four candidate proficiencies in all of its programs and at its core is assessment. Assessment strengthens the reflective nature of the Unit and its candidates.

In summary, the Unit’s faculty, in both initial licensure and advanced programs, assist individuals in achieving professional success by providing experiences that develop each of the conceptual framework’s proficiencies as portrayed in Figure 1.0. Thus, graduates emerge as Educators as Professionals with scholarship in their chosen disciplines, effective and professional dispositions, an ability to foster learning environments that are reflective in nature, and the desire to be life-long, inquiring learners and members of a professional community.

Commitment to Diversity

The Unit’s commitment to diversity is emphasized in the core values and purposes expressed in the Conceptual Framework. The reality of meeting the values and purposes is expressed through program activities such as courses, field experiences and clinical practice for all programs at both initial and advanced levels. The Unit’s adopted set of candidate outcomes and dispositions as expressed in the Conceptual Framework also reflect the commitment to diversity. The Unit has established performance standards (proficiencies) that all candidates are expected to develop and demonstrate through coursework, field, and clinical experiences. All candidates within the initial program have two diversity field experiences including one urban opportunity and one classroom experience with exceptional learners. Our expected outcomes and dispositions also reflect our strong commitment to diversity, not only in words, but also in the actions of both our faculty and candidates.

Commitment to Technology

To become an Educator as Professional at Old Dominion University, candidates must be well versed in the use of technology both in the classroom and at the University. The Unit strives
to meet the educational technology expectations set by the institution, its constituents, the state, and the federal government.

Technology integration and knowledge of media resources for instruction, classroom organization, and student learning are emphasized in the Unit’s programs. Candidates become familiar with the idea that technology includes, but is not limited to, devices including cell phones, tablets and laptops, web applications and apps, software, and learning management systems and/or relevant multimedia. Candidates are expected to use a variety of resources, including technology and non-print materials.

They must understand and use appropriate technology to help learners become proficient in the use of technology. In addition, they become skilled at developing the ability of the learners to apply technological knowledge and skills. Lastly, Candidates understand the importance of appropriately selecting instructional technologies to effectively teach all student populations.

APPLICATION AND CHECKLIST FOR TEACHERS AND ADMINISTRATORS APPLYING FOR A VIRGINIA PROFESSIONAL LICENSE

ODU teacher candidates completing an approved program and who are applying for a Virginia License must submit the following documents to Office of Clinical Experiences: Please make sure that all documents are attached. If a document is missing, the application cannot be processed and will be placed on hold until the missing document is received. This will delay your application. We highly encourage applications to first collect all the documents required, then, submit the application packet complete.

- Application for a Virginia License completed and signed. Please download this form, complete it and sign it. Include this form with the rest of the documents requested below, as applicable.
- College Verification Form (Complete ONLY Part I).
  Scroll down, print and complete ONLY Part I. Include it with this packet.
- Copy of the Child Abuse and Neglect recognition training certificate
- Copy of the dyslexia training Certificate
- Copy of the First Aid/CPR/AED training to include hands-on skills training
- Copy of your reading for Virginia educators [RVE] or Virginia Reading Assessment [VRA] Examinee Score Report [ for Pre-K, PreK-6, Special Education, and Reading Programs]
- Copy of your Praxis Subject (or multiple subjects) Assessment score report
- Copy of the Virginia Communication and Literacy assessment [VCLA] Examinee Score Report

The Virginia Department of Education requires official transcripts for every institution attended, even if you received transfer credit. Paper transcripts should be mailed directly to you and remain unopened. Electronic transcripts should be sent directly to the Associate Director of the Office of Clinical Experiences. The application cannot be processed without the official transcripts. This will delay processing of your application to be submitted to the Virginia Department of Education.

Official Old Dominion University transcript (in a sealed envelope). All teacher candidates must include an official Old Dominion University transcript showing:
- Your student teaching Passing grade if you are in a post-baccalaureate program
- Your degree, if you are in a degree program, bachelor’s or master’s degree
- Undergraduate teacher candidates need to include the ODU official transcript in a sealed envelope showing the bachelor's degree was received. If the undergraduate degree transcript includes transfer credit, an official transcript from the transfer institution must be included with your application.
- Graduate teacher candidates need to include an official transcript in a sealed envelope from the institution where the bachelor's degree was received. The ODU transcript must show that your MSED degree was awarded. In addition, include official transcripts in a sealed envelope from any other institutions where coursework was completed.
- Post-baccalaureate Endorsement candidates need to include an official transcript in a sealed envelope from the institution where the bachelor's degree was received. In addition, include official transcripts in a sealed envelope from any other institutions where coursework was completed, including Old Dominion University.

A nonrefundable fee must be submitted with your application. The in-state fee is $100, and out-of-state fee is $150. The fee is determined by the address stated on your application. Your check or money order must be made payable to the Treasurer of Virginia. The Virginia Department of Education WILL NOT PROCESS an application with a check dated more than 30 days old.

Incomplete packets will be returned. We will process completed application packets within approximately two weeks from the date of receipt, sign the College Verification Form, and forward your application to the Office of Professional Licensure in Richmond. A copy of the completed College Verification Form will be mailed to you to indicate that your licensure packet has been processed and mailed to the state. Once your license is issued, VDOE will mail you the certificate directly to the address indicated on the application.
