### Total credit hours: 167

- \* Does not include the University's General Education language and culture requirement. Additional hours may be required.
- 1 CHEM 120 is for online program students only.
- 2 ECE 111 satisfies the Cybersecurity Information Literacy & Research requirement.
- 3 CRJS 215S or SOC 201S satisfies the University's Human Behavior Way of Knowing requirement.
- 4 These courses are required courses for Cybersecurity curriculum (satisfying 2 Principles & 2 Application Courses) & ECE Technical Electives for Computer Engineering curriculum.

The General Education requirements in information literacy and research, impact of technology, and philosophy and ethics are met through the major. The upper-division General Education requirement is met through a built-in minor in computer science and through the completion of a second major/degree.

Computer engineering and cybersecurity majors must earn a grade of C or better in all 200-level ECE courses and all CS courses prior to taking the next course in the sequence.

Any ECE course registration issues are to be resolved with the ECE Academic Coordinator and Program Manager.

*The five-year plan is a suggested curriculum to complete this degree program in five years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.*
