Total credit hours: 120

*The four-year plan is a suggested curriculum to complete this degree program in four years based on placement into STAT 130M and foreign language met in high school. It is just one of several plans that will work and is presented only as broad guidance to students. However, once admitted to the nursing major the student is required to complete the precicensure curriculum as a full-time student in five consecutive semesters. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.
