

AY23-10-I

Faculty Senate Issue Log Form

Date-Submitted: 10/20/2023

Title-of-Issue: Unequitable parking fees

Description: the way they breakdown the parking fees hurt the employees who make the least amount of money. It is very unfair. Many of the lowest paid people pay over 1% of their salaries to park while the highest paid people are paying less than 0.03 % of their salaries.

Rationale: to make it a flat % fee for everyone. I have submitted some data to the committee for review. This will also stop them from arbitrarily raising the fees every year. They will get a raise when we get a raise
