

MacOS Monterey Upgrade Procedures

Download Monterey

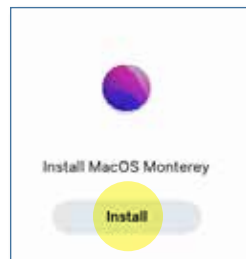

1. macOS Monterey should automatically download from the app store. (If not, open the **App Store**, find **macOS Monterey**, and click **Get**.)

Install macOS Monterey

Once the Monterey download is complete:

1. Launch the **Self Service** app from applications or the launchpad. (Make sure to save and close any documents you might have open.)
2. Find **Install MacOS Monterey** and click **Install**.

3. After the item installs, the computer will reboot and start the upgrade process.
