

Accessing MOVE Through a Web Browser

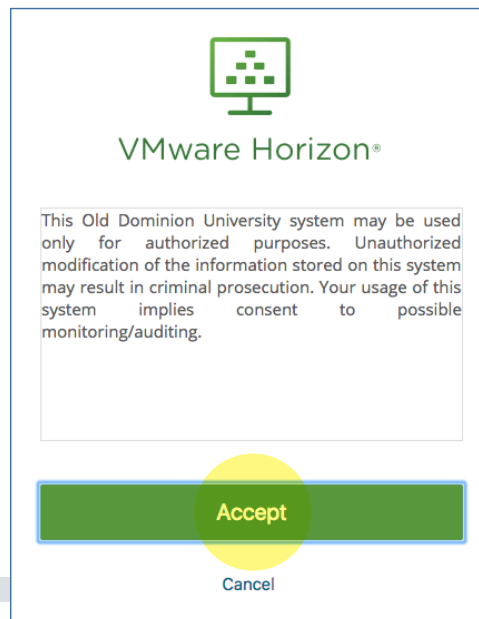

Log in to the Monarch Virtual Environment (MOVE) using an HTML 5 browser and gain access to a virtual ODU computer. All you need is a MIDAS account, an internet connection and an HTML 5 browser.

Instructions

1. Go to <http://move.odu.edu>
2. Click on **VMware Horizon HTML Access**.

3. **Accept** the university usage statement.

- When you see the Monarch-Key login page, enter your MIDAS ID and password (and two-factor authentication when prompted). If you have both a student and faculty/staff account, select which account to use.

- When you log in, look for the MOVE desktop you'd like to use. The most common ones are listed under **Recommended**, but all of the desktops available to you can be found under **MOVE Desktops**. **General Lab Windows 10** is available to everyone and has all the applications available in an ITS computer lab. For easy access, pin your favorite desktops to the top of the screen.

Helpful Hints

Once you've logged into the MOVE environment, here are some helpful hints to help you navigate the system.

1. If you need to press **CRTL+ALT+DEL**, you can use either **CRTL+ALT+INS** or click on **Send CTRL+ALT+DEL** at the top of the screen.
2. To print a document from MOVE to an ITS lab or remote printer, select **ODU B&W Printers** or **ODU Color Printers**. The names of printers are labeled on the side of the printer.
3. The VMware View client is also available for iOS and Android devices.
4. Connecting USB drives/device and sound redirection is only available in the VMware Horizon View client installation.
