Installing OneDrive

1. Open your Applications folder and double-click on the Self Service app.

2. Log in to Self Service with your MIDAS username and password.

3. Look for Microsoft OneDrive and click on the Install button. The installation will take a couple of minutes to complete.
4. Once it’s installed, open the **Applications** folder again and double-click **OneDrive**.

5. Type in your email address and click **Sign In**.

6. Click on **Work or school**.

7. Type in your email address and MIDAS password and click **Sign In**.
8. Use the default location for OneDrive and click on the **Next** button. Select which files or folders you want to sync between the computer and the cloud.

9. Click on **Open my OneDrive – Old Dominion University folder** to complete the OneDrive setup and view any files or folders that you told it to sync. You can also start dragging any files and folders to OneDrive. (Note: You can also view your files at [office365.odu.edu](http://office365.odu.edu).)
Backing up and accessing data on OneDrive

1. Open the OneDrive folder on your computer from the OneDrive icon in the upper right corner of the desktop (near the clock) or from the Finder under Favorites.

2. Drag your data into the OneDrive folder to sync it. You’ll see blue arrows going in a circle while the data is syncing, and a green check when the data is done syncing.

Important: Before copying any data to OneDrive, please review the Regulated Data Storage Matrix to see what types of data can be stored there (itsapps.odu.edu/storage_options).
3. To sync additional files or folders from OneDrive to your local device, click on the OneDrive icon near the clock and click More. Then click Preferences.

4. Click on Account, then Choose Folders. Place a check next to the data that you want to sync. Depending on the amount of data that you selected, it may take a few minutes to hours for the syncing to complete.

5. You can also access OneDrive online:
   a. Go to office365.odu.edu.
   b. Click on the OneDrive icon under Apps.
Sharing files with OneDrive

1. Right click on a file in your OneDrive folder, and click **Share**.

2. Choose who you’d like to share with. Type the person’s MIDAS ID or email address on the blue line, add a message if you want, and click **Send**. You could also create a link to share or send out through Outlook.

About OneDrive

- Each user has a total of 5TB of online storage with OneDrive.
- Individual files cannot exceed 15GB.
- OneDrive can restore deleted files ([more information](#)).
- [OneDrive Help and Knowledge Center](#)
