Tracy Knofla has conducted hundreds of outstanding presentations, seminars and workshops. Tracy is a co-owner and a featured presenter for High Impact Training, a nationally recognized training and development company.

Tracy feels she was born to be an educator - in the very broadest sense of the word. Her classrooms are all across the country and with students of all ages and backgrounds. Profoundly grateful for the opportunity, Tracy loves to share her talents and inspires others to change their lives.

Tracy received her bachelor’s and master’s degrees in Recreation and Leisure Studies from Southern Connecticut State University. She worked at Indiana University Southeast, as the Coordinator of Student Activities and as the Director of the University Center. In addition to the facility management, Tracy provided training and support to student and staff groups, where she developed and taught the freshman leadership course and supervised staff in multiple areas on campus. Following her career at Indiana University Southeast, Tracy served as Director of Therapeutic Recreation at several long-term care facilities in Connecticut.

Tracy and her business partner started High Impact Training in 1995 in order to fill a substantial training need within the higher education marketplace. Over time the company has expanded to include audiences within business, non-profit, government, and associations. As a business owner, Tracy understands the challenges that organizations face today. She knows that under-prepared or unproductive employees can affect all aspects of an organization, particularly the bottom line.

Tracy’s broad educational and professional background contribute to her inspirational, interactive and highly motivational training style. She has an uncanny ability to draw out even the most reluctant workshop participants. The numerous “a-ha” moments she creates motivate and inspire Tracy on a very personal level. She’s one of those rare individuals who appeals to young and old alike by bringing laughter and learning together.
