Virginia Institute for Spaceflight & Autonomy (VISA)

Transforming the Future Through Partnership, Technology & Education. Located on the Eastern Shore, the Virginia Institute for Spaceflight & Autonomy (VISA) is chartered to grow the entrepreneurial ecosystems for space flight and autonomy. The Institute is a hub that leverages Virginia's world-class assets in space launch, autonomous systems, modeling and simulation and data science to solve real-world problems.

- Facilitator of partnerships (industry, academia, government)
- Incubator for entrepreneurial startups
- Driver of economic development
- Magnet for new business
- Pipeline for student & workforce development
- Visionaries for advanced research
- Provider of technical solutions
