Dear Colleagues:

Amy Moynihan is the Assistant Director of Foundation Relations & Senior Proposal Writer in the Development Office. She specializes in writing grants to private foundations. I don't think many faculty in our college have considered the possibility of applying for foundation funding.

Amy has prepared the attached list of foundations for College of Sciences faculty to explore. She writes that this is not an exhaustive list. However, this list includes some of the national foundations that Development has tagged as aspirational foundations as well as ones that have connections to the sciences. Amy is happy to answer any questions and to talk with you about other foundations you might be interested in approaching. She is copied on this email.

Also, this week we will have the **townhall/Q&A on graduate stipends** that I mentioned in a previous email. The session will include Robert Wojtowicz from the Graduate School and Richard Brammer from ODURF.

When: Thursday, Dec. 15

Time: 2 – 3 pm

Where: OCNPS 142 (scale-up room)

I hope to see many of you at graduation on Saturday!

Best Regards,

Gail

Upcoming Events:

- Graduate Stipend Townhall and Q&A: Dec. 15, 2 – 3 pm, OCNPS 142
- College of Sciences graduation ceremony: Dec. 17 at 9 am -- faculty are strongly encouraged to attend; assemble at 8 am Webb Center with regalia
- Townhall Discussion on Workload: Jan. 26, 12:30 – 1:30, location and zoom link TBA
- EVMS integration forum: Jan. 30, TBA
