Dear Colleagues:

On November 9, the College of Sciences will hold its third annual Opportunity Networking Event (O.N.E.) for undergraduate students. The event will take place at Chartway Arena from 11:00 a.m. to 3:00 p.m. This is similar to a career fair, but focuses on **internships, undergraduate research, and volunteer opportunities** for our students. We have representatives from various companies and organizations in the region coming to talk to our students about the opportunities they are offering. Encourage students to stop by and get as much information as they can about internships, undergraduate research and volunteer opportunities.

Please also consider showing the attached flyer in your courses.

We have been told that a lot of students are not sure how to get involved in undergraduate research. It would be great if those of you who teach majors would say something to your students about how to get involved. Also, please remind them to activate their handshake account.

Best Regards,
Gail

Upcoming Events:

- Science Fridays: 4 pm in PSB 1100
 - Nov. 11: Sandipan Dutta (Math & Stat) & Jeff Olenick (Psych)
