Assoc Dean Research Ad 2023.pdf;

Dear Colleagues:

As you will see from the attached advertisement, I am looking for someone who wants to take the position of Associate Dean for Research for one year. Applications (CV and letter of interest) are due to me by close of business on **Monday August 7**.

Rodger Harvey, who has been the Associate Dean for Research for the past two years, will be serving as Interim Chair of the Department of Ocean and Earth Sciences for the next year. I am very grateful to Rodger for taking the helm of OES while we search for the next chair of that department.

This is also a good time to acknowledge the other new department chairs in the college. Sebastian Kuhn has taken over from Charles Sukenik as Chair of the Physics Department. Holly Gaff is now chair of the Department of Biological Sciences, replacing Chris Osgood. I want to thank Charles and Chris for their many years of service as chair (a total of 9 for Charles and 6 for Chris).

Finally, if you want me to list events of interest to the whole college, such as public lectures, at the end of the Monday Matters emails, please let me know.

Best Regards,  
Gail

### **Upcoming Events and Deadlines:**

- Welcome Back Faculty and Staff: Wed Aug. 23, 11 am MGB 102 – President Hemphill will make remarks at 11 am in MGB 102 followed by lunch.
