

Cover Sheet
Paul W. Kirk, Jr. Wetlands Biology Research Grant Application

Name:

Email Address:

Current Degree Program and Department:

Title of the Proposed Project:

Requested Amount:

Have you previously received a Kirk Wetlands Biology Research Grant? Yes No

I agree to fulfill the award requirements: Yes

I acknowledge the following: Yes

The following documents should be included with this cover sheet in a **single** file – PDF format and sent to Lisa Wallace (lewallac@odu.edu) with the following name format:
LASTNAME_FIRSTNAME_KIRK2024.

1. A proposal describing the research project and the specific funding needs. The proposal should include background on the proposal research, a clearly stated research question and hypothesis, a summary of methods for proposed work, and statement of the work's intellectual merit (i.e., contribution to scientific knowledge) or broader impacts (i.e., contribution to society). Relevance of the research project to wetlands biology must be clearly stated. (2 pages, single-spaced maximum)
2. A timeline for completing the proposed research and use of funds. (1 page maximum)
3. A detailed budget and justification for the requested funds (salaries are not allowed). Applicants must identify all other current funding for their research and justify the need for a Kirk Wetlands Biology Research Award. (1 page maximum)
4. A curriculum vitae or resume. (no page limit)
5. A transcript of all completed courses at ODU. (no page limit)

The letter of support from the faculty research supervisor should be sent separately to Lisa Wallace (lewallac@odu.edu).
