COS 2023 Awards.pdf;

Dear Colleagues:

Please consider nominating yourself or a colleague for one of the 11 College of Sciences awards listed below:

- Distinguished Research Award
- Early Career Distinguished Research Award
- Outstanding Undergraduate Research Mentor of the Year
- Distinguished Teaching Awards (four distinct awards)
 1. Tenured
 2. Tenure-track
 3. Lecturer
 4. Adjunct
- Outstanding Advisor of the Year
- Outstanding Staff Member of the Year
- Lee Entsminger Outstanding Ph.D. Dissertation Award
- Outstanding M.S. Thesis Award

A short description of each award is attached. Each award includes a monetary stipend. Nominations are limited to one per Department for each award. **The deadline for the Chair to submit nominations to the College is March 15, 2023.**

The [College website](#) lists the awards and recent winners. We will also make available to the Chairs a list of winners that goes back further in time. I would really love to see one nomination per department for each award this year.

Just as a reminder, last week I sent out an announcement about applying for the Cheng Fund for Innovative Research and the College of Sciences Undergraduate Research Program (COSURP).

Please take the time to honor your colleagues for their accomplishments by nominating them for the College of Sciences awards!

Best Regards,

Gail

Upcoming Events:

- Science Friday: PSB 1100, 4 pm
