

AY23-44-A

Faculty Senate Issue Log Form

Date-Submitted: 3/13/2024

Title-of-Issue: Seeking the recognition of organ donation, including bone marrow, as an approved absence condition.

Description: Organ donation is an elective procedure that can save the lives of both strangers and immediate family. Donation requests can be unexpected and can limit a student's ability to attend class. The Student Government Association urges the inclusion of elective Organ Donation procedures including but not limited to bone marrow, kidney, liver, lung, pancreas, or intestine be included as approved absence conditions for all students.

Rationale: To seek the approval of Organ Donation as an approved absence condition.
