Note: Gift-funded Ledger 5 and Ledger 6 projects by the EVMS Foundation (EVMSF) and ODU Educational Foundation (ODUEF) are philanthropic contributions used to initiate internally supported research or other sponsored activities that are reported as organized sponsored activity (e.g., for HERD reporting purposes). While these projects are recognized as part of the University's sponsored program portfolio for internal tracking and external reporting, they are not considered externally sponsored projects and are not subject to sponsor-imposed requirements. Oversight is governed solely by institutional compliance policies, including COI, export controls, travel, IACUC, and IRB review and requirements as applicable. The Sponsored Programs Administration team does not provide reporting or financial stewardship through the ODU Research Foundation for these gifted funds; all donor-related financial stewardship and reporting responsibilities reside with the EVMSF and ODUEF.
