

Message from the Dean

Dear Perry Honors College Students,

Our first Donuts with the Dean last week was a great success; it was wonderful to see PHC staff and students connect in Virginia House. I hope that those of you who attended the MLK observance on Thursday took some time to reflect on the power and impact of Dr. King's work. I studied for my Ph.D. in political science at Emory University in Atlanta, which is just four miles from the birth home and burial site of Dr. Martin Luther King Jr. Every year on MLK Day, I reminisce about visiting the charming home of Dr. King's maternal grandparents in which he grew up. A short walk away on Auburn Avenue is Dr. King's final resting place, surrounded by a beautiful pond that always made me think of the peace that was a guiding principle for him. Being physically in those places made his dream seem very real and tangible to me. I like to start the year thinking of Dr. King's legacy and there is something I want to ask you to do as we begin the second month of 2026: dream, dream big, dream for yourself, dream for those around you, and dream for your country.

Dr. Zaryab Iqbal
Dean, Perry Honors College
