Marquita Snow
Passion Studivant

Goals

- Create a vision and plan for becoming a “student-ready” university for learners of color.
- Increase our social mobility ranking by five spots in the next five years.
- Develop a national model for using design thinking practices by students and faculty and have those practices identified as a high impact practice.
- Build a collaborative network of ODU students and faculty committed to using innovative strategies designed to solve local and statewide problems learners of color face.

Workplan

- Monthly meetings of the leadership council using design thinking lens
- Becoming a Student-Ready College: A New Culture of Leadership for Student Success
- Using INNOVATE Monarchs program and electronic portfolios
- Finalizing strategies to make ODU “student-ready” for African American and LatinX learners
- Using what we have learned to create a cultural awareness training program for faculty and staff
- Hosting a social mobility conference
- Creating a plan for improving learning for learners of color

Outcomes

- A plan for improving learning for learners of color
- Training video teaching students of color how to develop an electronic portfolio
- A vision statement for improving learning for learners of color, endorsed by president's cabinet
- The identification of ten barriers to success for African American and Latinx students.
- Up to five policy changes designed to reduce barriers for African American and Latinx students
- Two new programs/initiatives for learner of color
- A cultural awareness training program
- Implementation of up to five policies to improve success for learners of color
- Ten case studies showing how design thinking was used to address problems African American and Latinx students face
- 25 electronic portfolios highlighting the work of the students as it relates to this project
- 95% of the students participating in the design thinking will be retained to the following semester
- Hosting a National Social Mobility Symposium focused on African American and Latinx learners.

Innovate Monarchs Lumina Faculty (22) & Students (30)

- Identifying barriers to success for African American and Latinx students.
- Possible programs, initiatives, and ideas; possible policy changes
- Ten case studies showing how design thinking was used to address problems African American and Latinx students face
- 25 electronic portfolios highlighting the work of the students as it relates to this project - *Students*
- Presenting at Social Mobility Symposium focused on African American and Latinx learners.

How Might We Design a University Ready for African American and Latinx Learners?

This program from the Center for High Impact Practices empowers selected Designers to identify a challenge or issue facing ODU Monarchs and develop innovative solutions to address the root causes to that challenge.

Using the design thinking approach to problem-solving, Designers participate in field work (such as observing or asking questions of ODU students/faculty/staff), dig into key topics, test ideas, challenge assumptions, and lend a student perspective to the issue identified. Finally, Designers present their work at a final showcase to ODU stakeholders at the end of the project timeline.

Your system is perfectly designed to achieve the results you are getting.

Human-Centered Design

Innovate Mindsets:

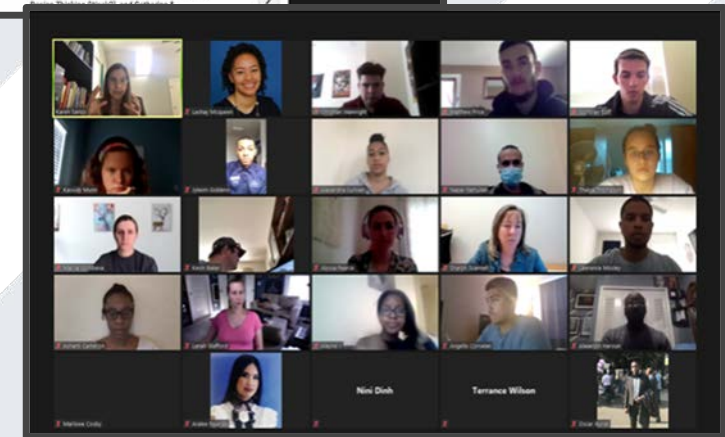

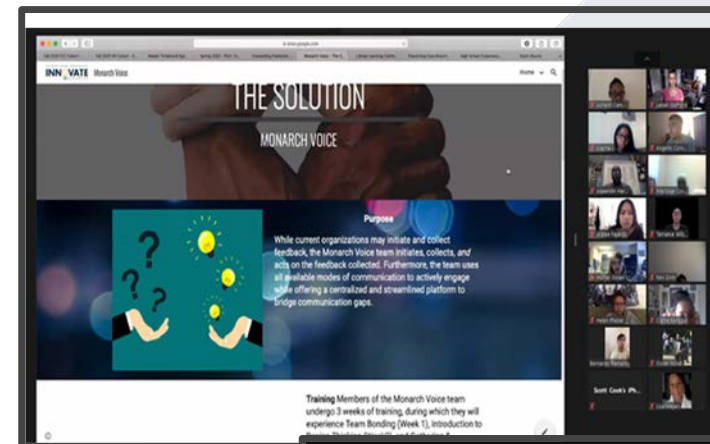

- Innovation is for Everyone
- Know Your Why
- Show and Tell
- Radical Collaboration
- Empathetic and Human-Centered
- Embrace Ambiguity
- Iterate, iterate, iterate

ODU has a culture of Entrepreneurialism and Innovation.

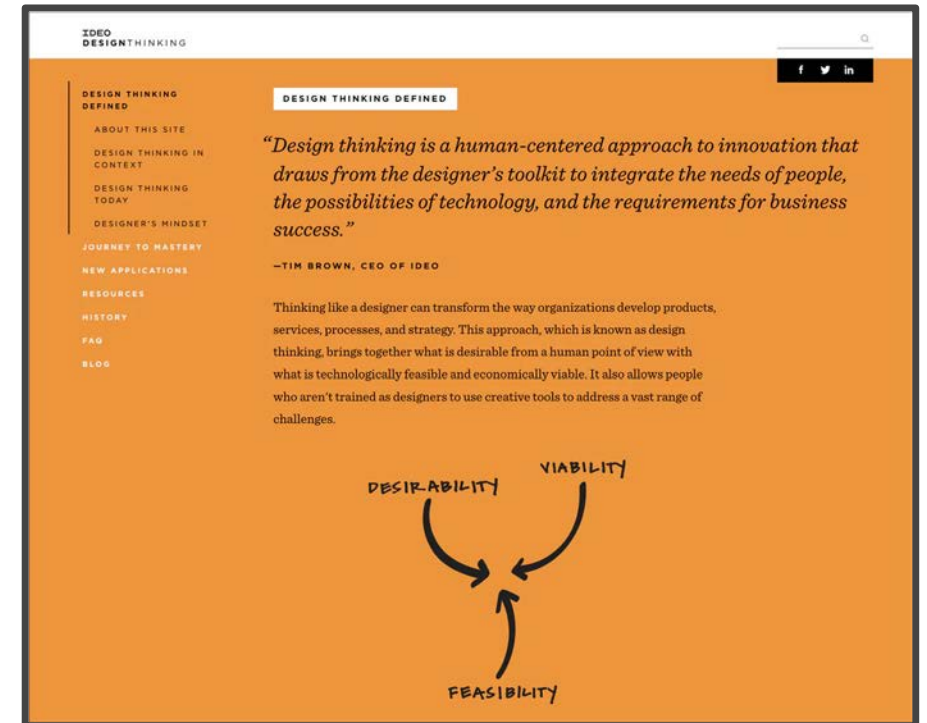

INNOVATION IS FOR EVERYONE

- Spring 2020: Innovate Monarchs & Innovate Cyber
- Fall 2020: Innovate Monarchs & Innovate Cyber
- Spring 2021: Innovate Monarchs Lumina

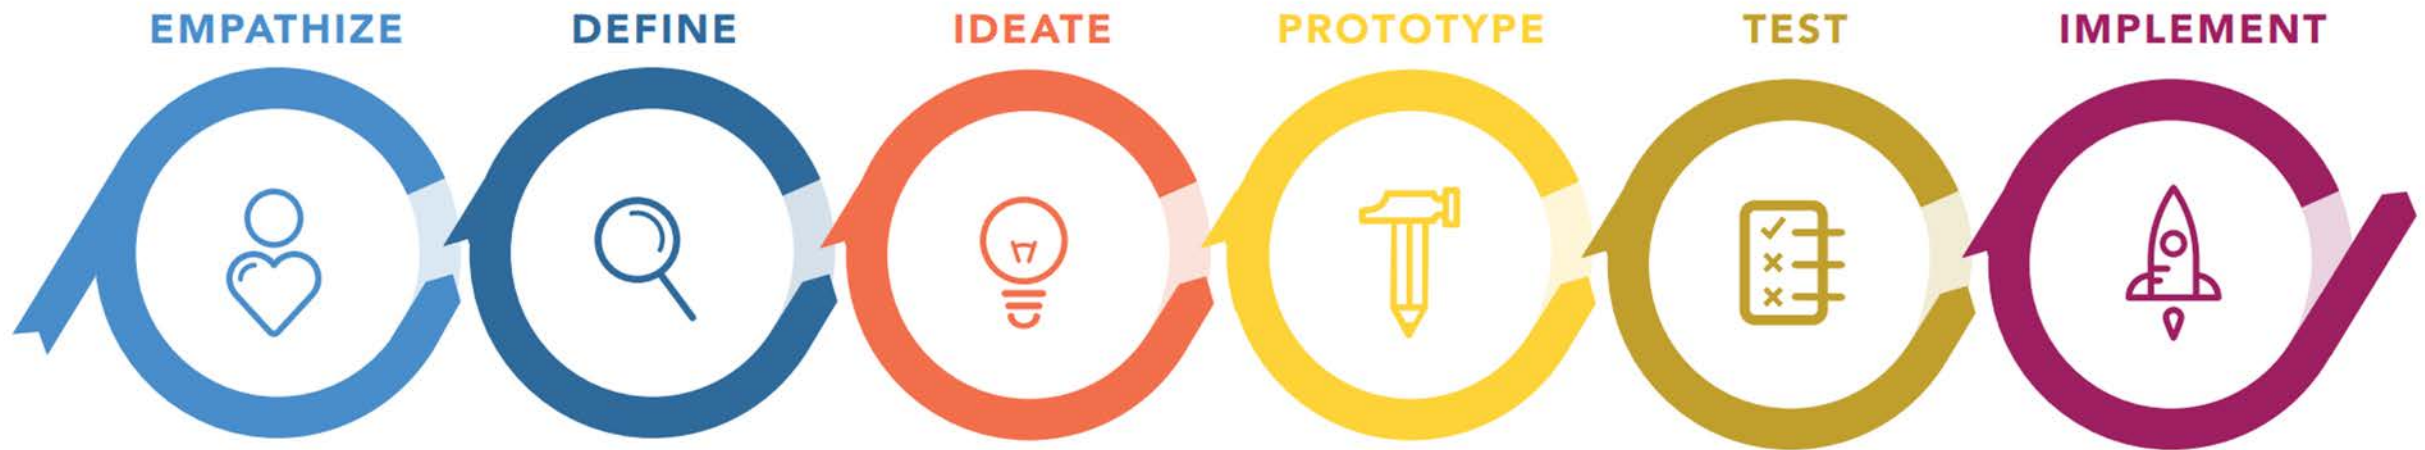

Design Thinking

Design thinking encourages organizations to focus on the people they're creating for and leads to human-centered products, services, and internal processes. The core of design thinking is about getting actionable and knowing your questions. It's about simple mindset shifts or ways of asking questions differently - a new way to look at problems.

Design Thinking

- Hands-on, user-centric approach to problem solving
- Cyclical and recursive process
- Six phases:

[Nielsen Norman Group](#)

Embrace Ambiguity

The problem is likely deeper than the surface of the challenge.

Don't jump to conclusions or rest in familiarity.

Be comfortable with the journey.

Program Overview

- Semester-long collaborative project
- Teaches the design thinking approach to problem-solving
- Provides active, experiential learning opportunities to work in a team environment
- Embraces entrepreneurial-focused activities as a high-impact practice

INNOVATE
MONARCHS

Our participants learned to...

- Define problems
- Embrace contradictions
- Engage in innovative and creative thinking
- Work as a team
- Develop their entrepreneurial identity and commitment

INNOVATE
