Semi-Annual Radioactive Materials Inventory	
For the Period:	_ to
Authorized User:	Department:
Building:	Room:

Directions: Inventory consists of <u>all</u> radioactive material on hand during the period noted above. It includes radionuclides you possess as stock solutions, sealed sources, cultures, and/or waste. Physically inventory this material in your possession. Group all radiochemicals containing the same radionuclide and the corresponding sum of their activities. You must complete this inventory even if no radioactive materials were received or disposed during the period noted above.
